Abilene Independent School District Board Document - Agenda Item VIII.E

Meeting Date: November 5, 2026 Meeting Type: Workshop

Item Type: Collaborative Future Action Required: Yes If Yes, Month: December

Subject: Board Goal Development

Background Information**:** Board will participate in a 45-minute work session to develop a clear, unified set of four to five high-level Board Outcome Goals. The discussion will be grounded in themes identified through individual conversations each trustee had with the superintendent and organized around academic outcomes, student programming, stewardship, talent development, and culture. The purpose is to establish clear, measurable direction for the district—not to deliberate operational tactics or individual administrative actions. Following the work session, district staff will develop recommended targets, progress measures, and a quarterly monitoring framework for future Board consideration. This process will help ensure the Board's goals are relevant, memorable, and aligned with Abilene ISD's long-term priorities for students, staff, and community.
