PREVIOUS ITERATIONS

AERIAL VIEW - OPTION A

AERIAL VIEW - OPTION B

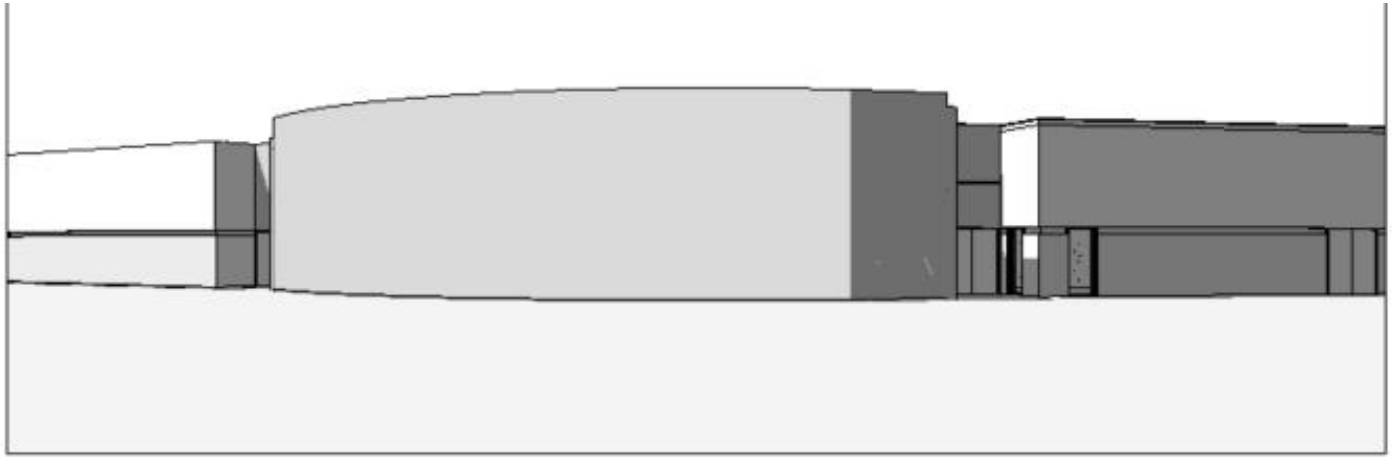

AERIAL VIEW - OPTION C

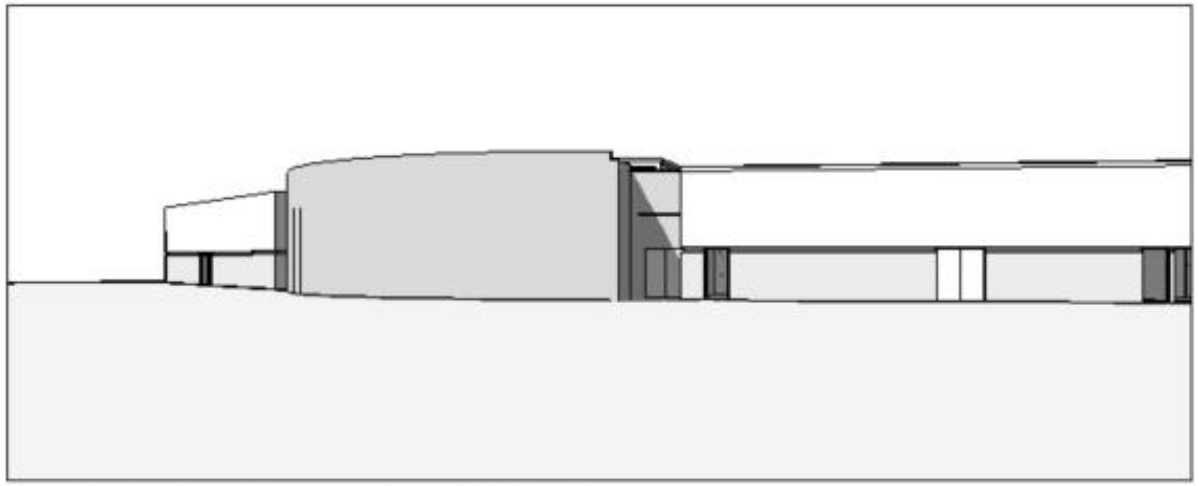

- Volumes being studied to maximize window opportunities and screen future HVAC units
- Evaluate heights against existing building
- Angular volumes provide simple forms and unique interior environments
- Rounded forms provide feeling of open space (current version)

CONCEPT PLAN

ZONING AND CIRCULATION

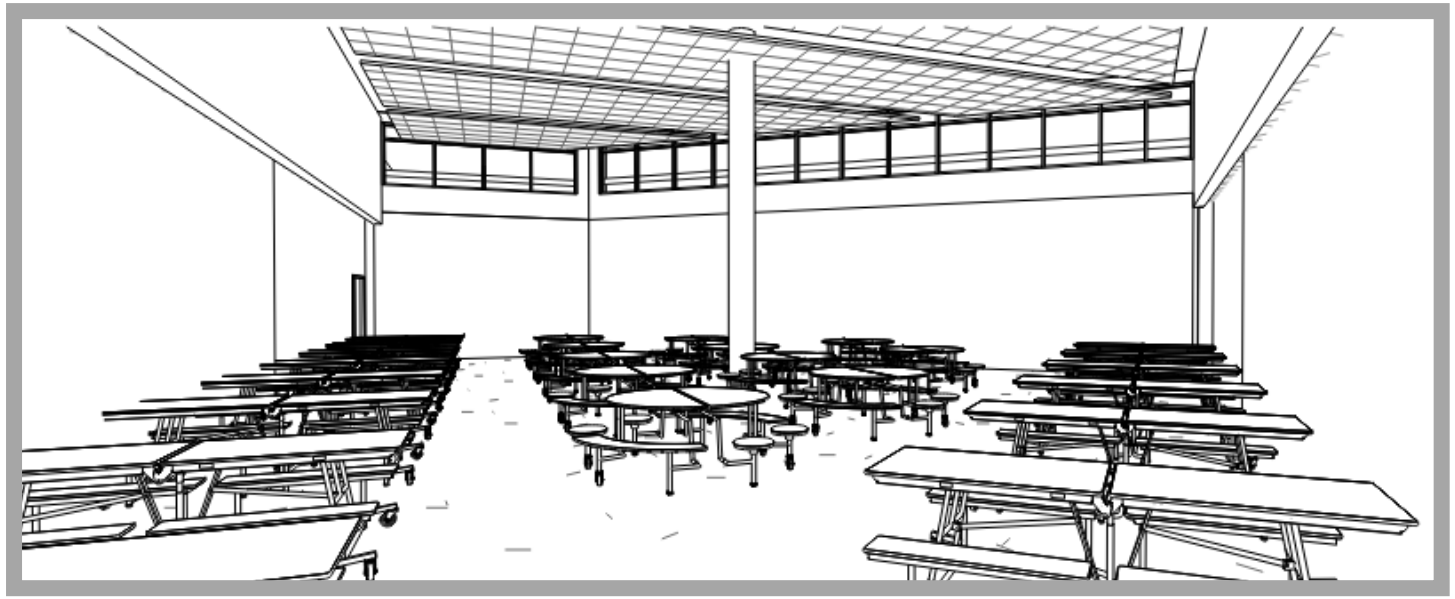

- Maintaining budgeted 6,500 SF addition
- Clear circulation paths required
- No physical barrier separation between circulation area and multipurpose to allow more flexibility
- Exterior windows and clerestory design being studied maximize natural daylight to interior spaces
- Interior plan, including final size of each space, will be finalized in future phase.
