Title	C126 - Participation of Non-Public and Homeschooled Students

C126

PARTICIPATION OF NON-PUBLIC AND HOMESCHOOLED STUDENTS

The School Board recognizes that some school-age children residing in the Franklin Community School Corporation are enrolled in non-public schools or are being homeschooled. Notification that a child is receiving an equivalent education program at home should be submitted to the Superintendent.

A student who is being educated at a non-public school or at home is permitted to participate in the Corporation's on-going co-curricular and extracurricular activities *if* documentation of the student's good standing in the non-public or home school is provided to the Corporation and may be required to take one (1) or more courses at a Corporation school. The participation will be limited to those activities which are ongoing rather than a single event. Students seeking participation in high school athletics are also bound by Indiana High School Athletic Association (IHSAA) regulations.

A student who is being educated at a non-public school or at home may be allowed to enroll in one or more program courses provided that the enrollment request is submitted in writing to the Superintendent or his/her designee prior to September 1 of that school year. The Superintendent or his/her designee will consider the request based on space availability and course requirements. Transportation will be the responsibility of the parents.

Participation in Corporation activities or programs is a privilege. Students enrolled in Corporation activities or programs are bound by Corporation policies and the student code of conduct. A student may be dismissed from the program or activity immediately for violation of the Corporation policy or student code of conduct.
