School Bus Purchase

Scott Hequembourg

School Bus Purchase Request

School Bus Purchase Request

Approval for the purchase of

- Fifteen 72-Passenger Diesel School Buses
- Three 47-Passenger Diesel School Buses with Three Wheelchair Spaces

District Fleet Purchase Estimate

- Estimated cost: $3,000,000 for eighteen school buses, not to exceed $3,500,000.

The requested purchase of 18 school buses supports compliance with the state requirement for seat belts on school buses while also addressing the district's ongoing bus replacement needs. This purchase will enhance student safety, ensure continued compliance with state regulations, and allow the district to replace aging buses as part of our regular replacement cycle.
