Background:

The Marana Unified School District current compensation plan includes the payment of available revenue from the Instructional Improvement Fund (020), also known as the Indian Gaming Fund. Each year, the Arizona Department of Education calculates the amount districts receive in supplemental revenue for these funds utilizing student enrollment data and funding availability at the State. In an effort to provide appropriate correlating payments to certificated employees, calculations were completed using current data to determine the payment amounts.

Based on these calculations, it has been confirmed that sufficient funds are available to pay the following stipend amount to all eligible employees:

- Instructional Improvement Fund (Fund 020) - $250.00
    - This represents the same amount distributed on the May 2026 payment.

Recommended Motion:

I move that the Governing Board approve the payment of incentive stipends related to Instructional Improvement compensation plans to all eligible employees.

Approved for transmittal to the Governing Board: _____
Dr. Daniel Streeter, Superintendent
