Topic: System of Great Schools – Quality Seats Analysis

Submitted by: Aniska Douglas, Chief of Staff/Strategic Innovation Officer; Van Ratsaphangthong, Director of Innovative Programs

Approved for Transmittal:

Board Meeting Date: November 12, 2026

Recommendation:

The administration recommends that the System of Great Schools team provide a Quality Seats Analysis to the board.

Rationale:

System of Great Schools is a district-level problem-solving approach that district leaders use to understand school performance and community demand to expand what works, replace what doesn't, and pursue all possible options to create high-quality, best-fit schools.

A Quality Seats Analysis (QSA) helps districts use key data to understand and prioritize the most critical opportunities for schools to ensure every student is in a high quality, best-fit school.

Budget Information:

Board Policy Reference and Compliance:

Board Goals:

- ☐ Goal 1 – Early Childhood Proficiency
- ☐ Goal 2 – Early Childhood Math Proficiency
- ☐ Goal 3 – College, Career, & Military Readiness (CCMR)
- ☐ Goal 4 – Middle School Ready Proficiency
