PRESSPlus Comments

C1. Updated in response to 105 ILCS 5/10-22.18c, amended by P.A. 104-480, replacing the term *day care services* with “early care and education” as it relates to model early care and education programs. This program is most likely to be located within unit or high school districts because as part of the program, a school must offer a course in child behavior in which students receive course credits for helping to care for the children in the program while learning parenting skills. **Issue 123, October 2026**
