2026 - 27 TIP School Improvement Strategies

Additional Instructional Support

Equips teachers with routines like structured peer discussions, sentence stems, and word walls to help students verbally process complex concepts, building confidence, academic language, and comprehension.

Lesson Cycle Overview

Provides consistent, bell-to-bell lesson frameworks—from warm-ups to exit tickets—with clear objectives, routines, and active teacher proximity to minimize distractions and foster student independence and engagement.

Tutorial Planning & Data Integration

Prescriptive tutorials targeting students at different performance levels based on state assessment data.

Professional Learning Communities

- Each campus administrator oversees a specific content area to ensure teachers' understanding and development of best instructional practices.
- Data is reviewed on current assessments to determine instructional focus moving forward.
- Teachers collaborate to share best learning practices based on proven results.

Accountability Training

- Campus will administer a benchmark assessment(s) in December to analyze data and target the weakest TEKS.
- District provided State Accountability Training for all administrators and teachers
- Monitoring campus walkthroughs/observations weekly and by nine-week period
