ADMINISTRATIVE REGULATIONS REGARDING IMMUNIZATIONS

I. Immunization Requirements

In accordance with state law, the [_____] Public Schools (the "District") requires each child to be protected by adequate immunization against diphtheria, pertussis, tetanus, poliomyelitis, measles, mumps, rubella, haemophilus influenzae type B, hepatitis A, hepatitis B, varicella, pneumococcal diseases, meningococcal disease and any other vaccine required by the schedule for immunization as determined by the Commissioner of Public Health pursuant to Conn. Gen. Stat. § 19a-7f, before being permitted to enroll in any program or school under its jurisdiction. Adequate immunization shall be determined by the District in accordance with applicable Connecticut law and the immunization requirements for students in Connecticut schools published or otherwise transmitted by the Commissioner of Public Health.

[If the District operates a preschool program, the following language should be added:

By January 1 of each year, children aged 24-59 months enrolled in the District's preschool program must show proof of receipt of at least one dose of influenza vaccine between August 1 and December 31 of the preceding year. All children aged 24-59 months who have not received vaccination against influenza previously must show proof of receipt of two doses of the vaccine the first influenza season that they are vaccinated. Children seeking to enroll in the District's preschool program between January 1 and March 31 are required to receive the influenza vaccine prior to being permitted to enter the program. Children who enroll in the preschool program after March 31 of any given year are not required to meet the influenza vaccine requirement until the following January.]
