ROBSTOWN INDEPENDENT SCHOOL DISTRICT
AGENDA ACTION SHEET

Date: **Nov 11, 2026**

Subject: Discuss and consider approval of the 2026–2027 library book titles in the district's library catalog in accordance with Senate Bill 13.

Administrator Responsible: Joshua Garcia & Jessica Juarez

Position: Director of Teaching & Learning & District Librarian

A. Purpose of Agenda Item:

☐ Information Only:

☑ Action Needed:

B. Authority for this Action:

☑ Local Policy: EFA (Local) – Instructional Resources: Selection and Adoption

☑ Law or Rule: Texas Education Code §33.021–33.027, as amended by Senate Bill 13 (88th Legislature, Regular Session, 2023)

C. Strategic Objective, Goal, or Need Addressed: This action supports District Goal 1: Ensure all students have access to high-quality instructional resources that promote literacy and critical thinking. Approval of the library catalog ensures transparency, compliance with state law, and equitable access to age-appropriate reading materials that align with district literacy initiatives.

D. Summary: In compliance with Senate Bill 13 (SB13), school districts must annually present library materials for board approval to ensure transparency and age-appropriate content. The proposed 2026–2027 library catalog includes titles aligned with district literacy goals, TEKS, and policy EFA (Local). All titles have been reviewed and recommended for approval by district librarians, with final review and approval by the Board of Trustees as required by SB13. The list of titles was provided to all board members 30 days prior to meeting as required for compliance with SB13.

E. Alternatives Considered: To defer or withhold approval of the district library catalog, which would result in noncompliance with SB13 requirements and delay the distribution of approved titles to campuses.

F. Comments Received: District librarians and campus principals collaborated with the Teaching & Learning Department to ensure that all proposed titles align with curriculum goals, age appropriateness, and district policy. The compiled list of library materials is presented to the Board of Trustees for formal review and approval in accordance with Senate Bill 13 (SB13) and policy EFA (Local).

G. Administrative Recommendation: Approve the list of library book titles for the 2026–2027 school year in accordance with SB13 requirements and district policy EFA (Local).

H. Fiscal Impact and Cost: No immediate fiscal impact. Library materials are procured through the district's approved instructional materials allotment (IMA) and library resources budgets.

I. Monitoring and Reporting: Ongoing review and updates will occur annually in compliance with SB13 and district policy. The approved catalog will be published on the district website for transparency and will be reviewed by the Library Review Committee each spring prior to board presentation.

Lotspeich	9798217039999	A day off school	Jeffers, Oliver	2026	K-3	School Library Journal starred (June 1, 2026) Gr 1-4-Herbie wakes up with the sniffles one morning, and his parents say he should stay home. Initially, Herbie is excited by the freedom of no school. He plays video games and builds forts while he's eating breakfast and watching TV, but by lunchtime, he's bored. He starts imagining what's happening at school without him. What if aliens invade? What if dinosaurs come? What if a dog runs down the corridor? Suddenly, school seems a lot more interesting! He even starts to miss his sister. When she gets home, he imagines that he sees a space helmet in her backpack, and then he's determined to go to school the next day. The vibrant artwork helps to bring Herbie's most far-fetched ideas to life and to clearly show the conundrum of a day off from school. The youngest readers may have trouble connecting to the text, but elementary-age students will be able to clearly identify with Herbie. Teachers might use this book as a mentor text for writing or drawing or talking about what readers would do on a day off school. VERDICT This is an enjoyable story to read and will resonate with young readers. An excellent choice for any picture book collection.-Debbie Tanner © Copyright 2026. Lotspeich	9781665938778	Alight : how urban parrots found new places to belong	Torres, Jennifer	2026	K-3	School Library Journal (May 1, 2026) PreS-Gr 1-An urban setting like southern California does not initially sound like the ideal place for wild parrots to thrive, but because of some unfortunate circumstances, this is now a location where many wild parrots are at home. Deforestation in Mexico and the trade of exotic birds over time has meant that thousands upon thousands of wild parrots are no longer present in their natural habitats. And while this could spell disaster for the species, the intrepid and persistent nature of wild parrots means that they, like so many others, have been able to successfully adapt. Brief yet resonant, this nonfiction picture book offers inquiring minds the reasons for which wild parrots thrive in California in the present day. Utilizing few words and a poetic, lyrical narrative, the story thoughtfully compares human structures to similar natural elements from the parrot's original habitat. Though the font is relatively small, the text is carefully placed within the images to help readers identify it easily as they navigate the story. Colorful, detailed illustrations echo the vibrant nature of the parrot's feathers in their artificial surroundings, lending a sense of hope and renewal to the text. Back matter provides additional resources and information for caregivers and older readers. VERDICT Straightforward and poignant, this book encourages readers to engage with their surroundings with curiosity, and to consider ways in which resilience is reflected in many creatures around the world.-Mary Lanni © Copyright 2026. Lotspeich	9798217050376	All the ways we learn	Ward, Chloe Ito	2026	K-3	Booklist (July 2026 (Vol. 122, No. 21)) Preschool-Grade 1. This colorfully illustrated book briefly introduces some of the ways children might learn differently. A stormy-blue, cloudlike shape indicates when a student in the class is distressed about a lesson, and Ward describes each student's struggle without using specific terminology, though it's clear the students are dealing with conditions like dyslexia, dysgraphia, and ADHD. Each two-page spread features a child describing their struggle and a list of techniques or physical accommodations that help them learn in a different way. For instance, a child experiencing dyscalculia uses an abacus to help them understand a math lesson. The final pages offer advice for parents, teachers, and other caregivers on the specific struggles featured in the main text as well as some examples of useful accommodations. The quiet narrative concludes with all the children and their teacher sitting in a circle on the lawn outside their classroom, while the teacher asks them, "How do you learn?" and awaits their replies. A simply written, reassuring book for affected kids who are curious about their differences.

Lotspeich	9781499815160	Band camp! 1,All together now!	Smith, Brian	2024	K-3	School Library Journal Xpress (May 24, 2024) Gr 1-3-Strike up a symphony of laughter with a new graphic novel series featuring a full orchestra of characters sure to delight young readers. Trey (a metal triangle), Zook (a kazoo), Kaylee (a guitar), and Cordelia (an accordion) are all bunkmates for a summer of band camp at Camp LaLa Lake. The quartet of instruments become fast friends as they start learning how to work as a team and prove to everyone else that those in the Junk Bunk are winners, too. The artwork and panels are bright, cheerful, and easy to follow for younger readers. Musicians will appreciate the attention to detail on the accurate renderings of a wide variety of musical instruments-with the exception of the addition of human facial characteristics and limbs, of course. The characters all have clearly identifiable personalities that come across clearly through dialogue and actions, with no shortage of music puns and jokes. VERDICT This series opener is sure to be a hit in library collections specialized for younger elementary readers where music is a high interest.-Lindsey Morrison © Copyright 2024. Lotspeich	9781499815207	Band camp! 2,Out of sync	Smith, Brian	2024	K-3	Kirkus Reviews (June 15, 2024) A sometimes-dissonant quartet of anthropomorphic instruments continue to weather ups and downs at summer camp. In their debut, the campers of Bunk J—Zook the kazoo, Kaylee the ukulele, Cordelia the accordion, and Trey the triangle—found harmony in time to triumph in a camp-wide competition. Now they're pitted against their nemeses in Bunk M for a game of tug-of-war. As usual, Zook is full of himself, but Cordelia slips, and they end up sliding to third place. Bunk J's trash talk irritates some of the other campers, who plan to divide the team; when Cordy can't get over her mistakes, they see their chance. Kaylee suggests a surprise party to bolster Cordy's self-esteem, but their planning lacks all discretion. Cordy's convinced that her friends are dumping her, and their clumsy manipulations reinforce her angst. The next camp challenge is a group hike up Piccolo Peak, and Cordy channels her insecurities into training. The hike is canceled due to rain, but Cordy's already set out. Now it's up to her friends to rescue her. Conflict, excitement, and cartoon mastery compose a siren song for young readers. The round-eyed, expressive instruments cut adorable figures in Smith's art, and Bunk J's antics and support for one another are appealing. Pitch-perfect and fast-paced, this series hits all the right notes. (Graphic chapter book. 6-9)

Lotspeich	9781665973762	Beep bop boop!	Long, Ethan	2026	K-3	School Library Journal Xpress (January 30, 2026) PreS-K-Long is back with another fun and engaging title for new readers. The story opens with three purple, egg-shaped aliens waving and saying, "beep, bop, boop!" From there, the illustrations carry the narrative as the only text is "beep, bop, boop" for most of the pages. Various animals (both real and fictitious) are afraid of the aliens and make all attempts to run away. After a series of increasingly dramatic escape attempts, the animals crash land on the moon where they finally think they're safe from the aliens. It's no surprise when the aliens appear, and everyone finally learns that "beep, bop, boop" means "give me a high five." This book starts as a fantastic entry for very new readers; the repetition of "beep, bop, boop" is simple and provides ample opportunity for practice and confidence building. The last few pages, however, suddenly introduce many more complicated words, including contractions. The digitally rendered illustrations are high-color, high-contrast, and full of movement. For most of the book, the illustrations are the story, and they successfully encourage readers to keep going with cliff-hangers and suspenseful transitions. VERDICT Despite the rapid introduction of new words at the end, this is a fast-paced and engaging early reader that will have youngsters on the edge of their seats while feeling proud of their progress.-Jessica Trafton © Copyright 2026. Lotspeich	9780593900734	Big feelings	Penfold, Alexandra	2021	K-3	Kirkus Reviews (January 15, 2021) Penfold and Kaufman team up again to show children how to navigate overwhelming feelings. The diverse group of kids from All Are Welcome (2018) this time gathers in a vacant lot with tools in hand to clear the debris and make something new. But therein lies the rub: What should the something new be? While the exact nature of the disagreement is unfortunately not made clear to readers, the big feelings that the children exhibit are very clear (and for readers who need practice reading facial clues, there's a labeled chart of 15 in the frontmatter). This book's refrain is "How can I help? / What can we do?" And the answers, spread over several pages and not spelled out in so many words but rather shown in the illustrations, are: talk it through, compromise, and see things from another perspective. As a guide for dealing with feelings and problem-solving, the book is a bit slim and lacks a solid story to hook readers. But, as with its predecessor, its strength is again the diversity on display in its pages. There's a rainbow of skin tones and hair colors as well as abundant variation in hair texture, several children exhibit visible disabilities, including one child who uses a wheelchair, and there are markers of religious and cultural diversity. (This book was reviewed digitally with 10-by-20-inch double-page spreads viewed at 29.6% of actual size.) The story's slight but allows kids to practice identifying and dealing with their own big feelings. (Picture book. 4-8)

Lotspeich	9781400242900	Broken crayons still color	Collier, Toni J	2023	K-3	Kirkus Reviews (June 1, 2023) Collier, founder of the international women's ministry Broken Crayons Still Color, and co-author Bak help kids tackle first-day-of-school jitters. There's nothing like a new box of crayons, especially when the first day of school is right around the corner. Avery tries to enjoy coloring, but she feels "flippy, fizzy, and fluttery inside." When Avery doesn't want to eat dinner, her father realizes she's nervous and encourages her to pray. Avery replies that she's too scared; her father tells her, "You can do hard things." Later, Avery draws with her crayons, but her depictions of her first day reflect her anxieties—attempting to draw the school playground, she scrawls an image of her being hit by a ball while another child laughs. Suddenly, Avery's crayons break. Realizing she's made a mess, she begins to sob: "I'm a mess, just like these crayons." But one of the crayons Avery broke begins talking to her, telling her not to put herself down. The very polite crayons reassure Avery, telling her it's OK to feel bad, offering her strategies for calming herself, and telling her that "no mess is ever too big for God." Vasilica's sprightly illustration are charming and inviting, while the message is a soothing one—though one more likely to appeal to religious, especially Christian, readers. Avery and her family present Black. (This book was reviewed digitally.) Religious-themed affirmation to help steel little ones fretting about school. (feelings color wheel) (Picture book. 4-8)

Lotspeich	9781665990646	Chicka chicka peep peep	Chung, Julien	2026	K-3	Kirkus Reviews (November 1, 2025) The classic picture book Chicka Chicka Boom Boom (1989) gets a makeover for Easter as the letters of the alphabet locate and decorate eggs. The mission is simple: "Chicka chicka peek peek. / Everybody seek seek! / Find all the eggs / in the pretty pink tree." The letters are making their way up the flowering tree in search of the hidden eggs when a "SNEEZE!" scatters everyone and the eggs fall and crack. Luckily, a bunny hops by with a haul of new ones, which the letters then paint and bedazzle, eventually sharing the newly decorated eggs with a group of bunnies. This picture book is a successfully Easter-fied version of the original: The letters go up; the letters fall down. Truly, though, that's all the preschool crowd needs. Chung's illustrations are simple and familiar, a direct echo of Chicka Chicka Boom Boom. The letters appear in colorful, bold, block form. The book has few added details, just focal images like the tree and its pink flowers, the colorful eggs, tufts of grass, and some friendly rabbits. The alphabet appears in order (both upper- and lowercase letters) at the book's open and close. The rhyming text follows the iconic cadence of the source material, making for a worthy read-aloud that will keep little hands turning pages. A sweet, springtime-themed reworking of a beloved tale. Lotspeich	9798347114702	Click Clack...Tooth Fairy	Cronin, Doreen, and Lewin, Betsy	2026	K-3	Kirkus Reviews (August 15, 2026) Farmer Brown's iconic waterfowl moonlights as a magical assistant. Sunset signals that pale-skinned Farmer Brown's work is done, but Duck's evening has just begun. He has agreed to help the Tooth Fairy collect teeth and leave gastronomically appropriate rewards behind—salt licks for the calves, sweet potatoes for the piglets, and broccoli for the lambs. Cronin and Lewin's protagonist is an irresistible member of the pantheon of cartoon ducks. Clad in a tutu and wielding a homemade wand, he carries out his sneaky mission. He carefully reads the list of instructions left behind by the Tooth Fairy—has anyone seen a duck sit on a stool and review guidelines with such intention before? This latest entertaining episode is rife with clever details; even the text on the copyright page forms a silhouette of Duck! Each of Duck's tasks concludes not with the recipients discovering their treats, but with the declaration, "He is done!" in enlarged font, accompanied by full-page artwork (a close-up of Duck's derriere in the moonlight, Duck catching a quick nap in the grass, and our hero joyously tossing off his tools). And at last, a reward awaits hardworking Duck. How does Duck know the Tooth Fairy, exactly? Answering that question is a reward in and of itself, as borne out by a wordlessly affecting epilogue where the line between imaginative play and magic blurs and disappears. Readers will want to accompany this substitute tooth fairy on his rounds over and over. (Picture book. 4-8)

Lotspeich	9781797226590	Construction site: firefight!	Rinker, Sherri Duskey	2026	K-3	School Library Journal Xpress (March 27, 2026) PreS-Gr 2-In an era with more extreme wind and weather, as well as intense and destructive fires, this addition to the familiar series is timely. It contains the signature elements of the previous books: clever rhymes in an engaging and satisfying story, helpful, hardworking construction vehicles, and colorful illustrations that enrich the narrative. In this story, high wind topples an electrical pole, and a live wire ignites the fire. With the help of specialized fire vehicles, including Engine (also known as Pumper), Command Vehicle, Ladder Truck, Tiller Truck, Foam Tender, Brush Truck, the "brave, tough" construction vehicles work through the night to put out the fire and then clean the site. While Rinker's text explains how each fire vehicle works in concert with the others, Ford's illustrations showcase the different features of the fire vehicles. The cross-section of Engine is particularly detailed, with labels and lines showing the water tank, hoses, nozzles, and oxygen tanks; these will appeal to children who love knowing everything about trucks. At the end, Rinker states that "Fire can be scary, but there are ways to stay safe" and includes fire tips for children, including knowing their escape plan, yelling for help, staying low, and knowing how to call 911. VERDICT This positive story of teamwork to extinguish a fire safely celebrates the brave men and women who are firefighters in a way that children will understand and applaud.-Sally James © Copyright 2026. Lotspeich	9781543510720	Delectable cupcakes with a side of science : an augmented recipe science experience	Eboch, M. M	2019	5-8	School Library Journal (November 1, 2018) Gr 5 Up-Cooking is a great way to absorb science concepts and learn lab techniques, and when that learning is incentivized with dessert? Slam dunk. Twelve recipes per book are presented in a nice tidy layout, with ingredients and supplies clearly listed in boxes at the top of the page. Detailed process writing in a slightly casual tone is good for clarity-a timer "dings," frosting can lose its "fluffiness," and illuminating sidebars explain what is happening as ingredients combine or heat is applied. In each volume, valuable information, especially for students, is -cemented by observable (and edible) results, which will also make for better cooking and baking results. Gluten-free, dairy-free, and vegan recipes are sprinkled throughout, as well as substitutions for common allergens. Some recipes require only a microwave or a refrigerator, which is great for clubs or classrooms without access to an oven. Most recipes are for beginning bakers, but some are more challenging or fiddly-fortune cookies and biscotti. VERDICT Helpful tips, smart science, and lots of sugar! An excellent pick for cooking programs looking to incorporate science concepts. © Copyright 2018. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc. No redistribution permitted.

Lotspeich	9781984894717	Doodleville	Sell, Chad	2020	3-6	School Library Journal (March 1, 2020) Gr 3-6-Chicago native Sell's (The Cardboard Kingdom) latest graphic novel does triple duty as a tribute to the power of art, a message of the importance of friendship, and an inspired romp through the Windy City. The only child of busy parents who own a diner, nine-year-old Drew has few friends. Instead, she takes solace in her doodles, who, when they're not hanging out in "Doodleville," pop off the page and cause mischief. When Drew and her art club take a field trip to the Art Institute of Chicago, the doodles run amok among the famed paintings, frightening one of Degas's ballet dancers and making a splash among Monet's water lilies. When an angry museum bigwig scolds her for defiling a painting, Drew is consumed with worry, and her anxiety sky-rockets when her newest doodle, a leviathan, destroys Doodleville, invades the other club members' (magical but better behaved) artwork, and devours another character. Though racked with guilt, she must overcome her angst before it envelops her, with the help of family and friends. Sell has crafted a tender yet action-packed tale of a young girl who uses her creativity as an outlet for her emotions and learns to draw strength from those around her. Vibrant, whimsical cartoons keep the focus on characters' facial expressions. The tone and palette reflect the story; gentle, muted hues and controlled linework are replaced with angry purples and frenetic scribbles when the leviathan wreaks havoc. VERDICT Aspiring artists, fans of The Cardboard Kingdom, lovers of graphic novels, and anyone struggling with friendship will appreciate Sell's newest tale.-Beronica Puhr, Oak Park Public Library, IL © Copyright 2020. Lotspeich	9781984894748	Doodleville. Art attacks!	Sell, Chad	2022	3-6	School Library Journal (December 1, 2022) Gr 3-6-Turns out the crisis from Art Club's last visit to the Institute (Doodleville) wasn't totally averted: a baby from a painting was accidentally kidnapped! Now, Drew and friends have to find a way to sneak the baby back into his painting without Mrs. Krong noticing. Their top secret "reverse heist" doesn't exactly go as planned, however, and inadvertently triggers a schism between various masterpieces whose subjects come to life. Can they save the Institute before the art-and their club-is torn apart? Sell's whimsical, off-the-wall tone makes the art gallery both accessible and interactive, providing possible opportunities for real-life interactions. Dynamic paneling keeps the pace quick and draws attention. The mix of personal styles and ensemble focus adds a strong sense of individuality for each of the diverse Art Club members. VERDICT A creative sequel with wide appeal to artists and art appreciators alike. © Copyright 2022. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc. No redistribution permitted.

Lotspeich	9780593699768	Pencil & Eraser. 1,We have a dull-emma!	Alvarado, Jenny	2024	K-3	School Library Journal (August 1, 2024) K-Gr 2-Classroom life has plenty of challenges, and in this goofy graphic novel, this sentiment extends even to the simplest of school supplies: the familiar, unobtrusive pencil and eraser. With a reader-directed rapport that establishes Pencil as a high-energy jokester and Eraser as a practical foil, the heart of the dilemma is quickly revealed-Pencil's point is dull and she fears being rendered useless to her student-owner Stella. She dons an adventurer's brown, brimmed hat and enlists Eraser in her quest to seek out a functional sharpener. Will Pencil's point be restored before Stella returns and finds her gone? It's not exactly nail-bitingly intense, but the rapport between the pair is intriguing-for every goofy, concerned, sad, or ecstatic expression Pencil makes, Eraser responds with a perpetually neutral, if slightly world-weary, expression. Even when Pencil takes designated "Joke Breaks" in each chapter, Eraser remains, hilariously, unmoved. Nevertheless, their friendship and teamwork persists, encouraging young readers to chuckle and groan their way through this simple and fun story. Alvarado's illustrations move smoothly between conversational and active moments, colored in pleasant primary hues reminiscent of the aesthetics of elementary education. VERDICT Active and funny, Pencil and Eraser's adventures are good for a giggle and cute to boot.-Emilia Packard © Copyright 2024. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc. Lotspeich	9780593699812	Pencil & Eraser. 2,Lost and frown!	Alvarado, Jenny	2025	K-3	School Library Journal (May 1, 2025) K-Gr 3-In their second book, Pencil and Eraser have to work their way back to their owner, Stella, after falling out of her bag at school before she left for karate class. The adventure-loving Pencil and the ever-grumpy Eraser will have to use their ninja skills to infiltrate several places, getting help from others as they make their way to the dojo. Comedic elements are included via a "Joke Break" between chapters, but are also present in the dynamic between characters and the reader. Fans of the Toy Story franchise will find a lot to like. VERDICT This series will definitely bring laughs to young readers as they imagine what happens to their own school supplies when they aren't paying attention. © Copyright 2025. Lotspeich	9780593699898	Pencil & Eraser. 3,New friends rule!	Alvarado, Jenny	2026	K-3	Kirkus Reviews (October 1, 2025) Can Pencil and Eraser's friendship stretch to accommodate a third pal? Pencil's wavering attempts to draw a castle wall are interrupted by Ruler's offer to help. Pencil's grateful, though Eraser's uncertain, especially when Ruler unwittingly makes him unnecessary—who needs an eraser when a ruler's on hand to help draw straight lines? Still, he joins in their joint quest to find a missing green crayon. (Alert readers will have spotted it early on near Stella, the school supplies' curly-haired, brown-skinned owner.) Throughout, Eraser offers commonsense correctives to the well-meant but not well-thought-out impulses of the other two. In keeping with Pencil's medieval obsession, she proposes making a catapult and, with both flattery and force, propels reluctant Eraser to the vantage point of some old chewing gum stuck on the ceiling. Challenges ensue as Alvarado underscores her point: Teamwork makes the dream work. And Ruler learns that being "perfect" isn't required for acceptance. Once again, this lively adventure is divided among four brief well-paced chapters, with clearly defined characters, simple cartoon illustrations, and brisk, on-point dialogue. "Joke Break!" sections between chapters keep the laughs coming. Sticky social situations are easy to see and solve in this amusing series, perfect for beginning readers. Lotspeich	9781543510737	Scrumptious cookies with a side of science : an augmented recipe science experience	Eboch, M. M	2019	5-8	School Library Journal (November 1, 2018) Gr 5 Up-Cooking is a great way to absorb science concepts and learn lab techniques, and when that learning is incentivized with dessert? Slam dunk. Twelve recipes per book are presented in a nice tidy layout, with ingredients and supplies clearly listed in boxes at the top of the page. Detailed process writing in a slightly casual tone is good for clarity-a timer "dings," frosting can lose its "fluffiness," and illuminating sidebars explain what is happening as ingredients combine or heat is applied. In each volume, valuable information, especially for students, is -cemented by observable (and edible) results, which will also make for better cooking and baking results. Gluten-free, dairy-free, and vegan recipes are sprinkled throughout, as well as substitutions for common allergens. Some recipes require only a microwave or a refrigerator, which is great for clubs or classrooms without access to an oven. Most recipes are for beginning bakers, but some are more challenging or fiddly-fortune cookies and biscotti. VERDICT Helpful tips, smart science, and lots of sugar! An excellent pick for cooking programs looking to incorporate science concepts. © Copyright 2018. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc. No redistribution permitted.

Lotspeich	9780374314545	The book of rules	Gehrlein, Brian	2021	K-3	Kirkus Reviews (September 1, 2021) Rules will keep you safe from Dennis. In this fourth-wall–busting story, readers learn immediately that "If you break the rules, Dennis will eat you." The first question is, who is Dennis? Dennis is a large purple monster, not even slightly threatening, with a goofy smile and a "weird thing" on one foot. Enumerated rules commence, ranging from practical ("You must sit on the floor") to silly ("You are now required to moo like a cow") to mindful ("Keep your eyes closed. Feel your heartbeat. Feel the floor"). The six unnamed children shown on almost every page display a variety of skin tones and hairstyles. This fills the bill for teachers or librarians looking for an active storytime choice, though the 11th and final rule ("Feed Dennis...THE BOOK OF RULES") is impossible to carry out, making for a confusing ending. Furthermore, the thread of preachiness throughout, complimenting children on following rules that often align with the behavior adults desire from them, means that some young people will see this as a transparent attempt to get them to follow instructions outside of the story. Still, for groups of kids who want an excuse to make fish faces and give themselves bear hugs, this will occupy several entertaining minutes. (This book was reviewed digitally.) A guidebook that many kids won't mind following. (Picture book. 4-8)

Lotspeich	9781797233208	Tiny T. Rex and the first-day oopsies : a back-to-school book	Stutzman, Jonathan	2025	K-3	School Library Journal (May 1, 2025) PreS-K-Tiny T. Rex is going to a new school, and he is feeling both prepared and nervous. Readers follow him through his first day, as he confronts new tasks and routines. When Tiny makes mistakes, like squirting his juice box on a friend and tooting his instrument when he was asked to woot it, he worries he is not ready for school. With support and assurance from his teacher, friends, and family, Tiny understands that mistakes are part of learning. Confidence restored, Tiny feels big, smart, and ready for school. Through clear and simple text, Stutzman tells Tiny's story from a child's point-of-view and addresses common first day of school fears. Fleck's illustrations, rendered in pencil and then colored in digitally, use primary and secondary colors to create inviting illustrations that are easy to read. VERDICT Young children will relate to Tiny and his first day of school jitters, while being reassured that school is a place to make mistakes and grow.-Sarah Pousty © Copyright 2025. Lotspeich	9781774882023	We are definitely human	Fang, X	2024	K-3	Booklist starred (August 2024 (Vol. 120, No. 22)) Preschool-Grade 3. On a starry night in the American countryside, "something" (clearly a flying saucer) crashes near Mr. and Mrs. Li's house. Investigating by flashlight, Mr. Li discovers three oddly shaped and hued strangers (clearly aliens), but he is pacified by their quick assurance, "We are DEFINITELY human." They only want to fix their car (spaceship), so after spending the night with the Lis, they visit the local general store, get what they need, and—with the help of the kind townsfolk—repair their car (spaceship) and return to . . . outer space. Matthew Forsythe meets Jon Agee in Fang's wry, strikingly illustrated close-encounter story. Classic humor comes in through the absurdity of the aliens' charade ("We are from . . . Europe"), made more hilarious by the gullibly wide-eyed farmer and his suspiciously leering dog. The gag only gets better as the trio struggles to dance, eat food ("Food goes into the mouth"), and hold interesting conversations ("'Bark! Bark!' said the dogs. 'That's very interesting,' replied the shorter one"). The story proves more than just a gag, though, through its smoothly executed lesson on being kind to those in need. The textured, richly colored graphite-pencil landscapes and rounded characters are quite beautiful, making the blue-and-pink-shaded alien trio all the more awkward. Laugh-out-loud lovely.

Lotspeich	9781665961141	Yarn is everything!	Reynolds, Aaron	2026	K-3	School Library Journal (June 1, 2026) Gr 3-6-Reynolds and Brown return to the sinister world of Jasper Rabbit's "Creepy Tales!" with another entry that leans fully into its delightfully macabre premise. This time, the spotlight shifts to Winona Mole, a young crocheting prodigy whose love of yarn borders on obsession. After a visit to a museum of fiber arts, Winona comes into possession of a mysterious crochet hook that elevates her skills to uncanny heights. Her creations become so lifelike, they fool even those closest to her. As she prepares to compete on the reality show Yarn Is Everything!, ambition overtakes joy, and the story spirals toward an eerie, cautionary conclusion. Reynolds's ominous narrator guides readers through escalating absurdity with impeccable comic timing. The premise is as delightfully ridiculous as it is unsettling, and the text balances humor and creeping horror with a steady hand. Brown's illustrations, rendered in grayscale with pops of glowing aqua, heighten the unease, and Winona's tapered hook-which defies the mechanics of real-world crochet-reinforces the supernatural turn. The interplay between text and image is especially effective as ordinary objects subtly shift into something uncanny. Darkly funny with a sharp edge, this installment underscores the cost of perfectionism without losing its playful bite. VERDICT A creepy, clever cautionary tale; a strong addition for fans of lightly spooky, highly illustrated chapter books.-Rose Garrett © Copyright 2026. RECHS	100 symbols that changed the world	Salter, Colin	YA	2022	9781911216384	Hardcover	Library Journal (January 1, 2023) Nonfiction writer and researcher Salter (Remarkable Bike Rides; 100 Speeches That Roused the World) explores symbols chronologically from ancient marks for musical notation, religious representations (cross; ankh) and mathematics (equals sign; pi) through the 1970 green recycle arrows, the 1991 AIDS red ribbon, and several meanings for rainbows. Some single entries encompass multiple icons (alchemy symbols; naval communication flags), while others follow a symbol's change in associations over time (the swastika's origins are thousands of years old, as a symbol of well-being). Introductory notes briefly discuss how color and shape help symbols quickly and effectively convey information. From the peace symbol and the smiley face to the distinctive skull-and-crossbones of pirate flags and poison warnings, readers will find fascinating tidbits to enjoy. Other books in the series include 100 Science Discoveries That Changed the World, 100 Posters That Changed the World, and 100 Children's Books That Inspire Our World. VERDICT Enjoyable and educational with abundant illustrations. Suggest to middle-grade readers through adults. Recommended for all libraries.-Maggie Knapp © Copyright 2023. SJH	13 ways to say goodbye	Fussner, Kate	5-8	2025	9780063256989	Hardcover	School Library Journal (January 1, 2025) Gr 4-7-Fussner's latest novel in verse takes readers to Paris, where Nina is visiting her aunt solo for the first time. Her older sister Lily died a year earlier, and Nina is determined to finish the "13 Before 13" list of things her sister wanted to accomplish before her 13th birthday. Nina will be celebrating her own 13th birthday on the day she leaves Paris; it seems like an excellent way to bring closure to Lily's last hopes, while also escaping parents who seem to have forgotten Nina exists since her sister's death. Middle grade readers who yearn to travel will appreciate the taste of a Parisian vacation, while those pondering the intricacies of a first crush will fall for Nina's blushing attraction to her assigned friend and guide, Sylvia. While the spare verse does not always explore Nina's feelings to the degree of angst and yearning this burgeoning relationship deserves, it is a sweet and earnest youthful romance that will allow readers to explore the complexities of moving from friend to romance, as well as talking to family members about a crush. Nina's grief is portrayed in sometimes awkward, possibly magical flashbacks that give a glimpse into the family's life when Lily was alive, and ultimately allow Nina to see that she needs to live on her own terms rather than try to emulate her older sister. VERDICT Recommended for middle grade collections where verse novels are popular.-Kate Olson © Copyright 2025. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc. RECHS	83 days in Mariupol : a war diary	Brown, Don	YA	2025	9780063311572	Paperback	School Library Journal starred (April 1, 2023) Gr 9 Up-No punches are pulled in this stark, unflinching diary of the siege on Mariupol by Russian forces sent by Vladimir Putin on February 24, 2022. The brutality and senselessness of war are front and center in this work of graphic nonfiction. The diary opens with important history about the region and Putin's true intentions. Brown, known for his intense, well-documented nonfiction, and working in a muted palette, uses black and white this time to great effect. The relentless gray panels accentuate the crushing burdens of bombings and attacks on normal life. Panel sizes and close-ups bring immediacy to the atrocities of war, while quotes from those present, sourced in the back matter, are included in speech bubbles. Civilians are targeted and gunned down and left in the streets. Water and electricity stop. Those residents who cannot flee hole up in the Azovstal steel plant using WWII bunkers. Eventually, the Ukrainian forces must fall back there themselves. Civilians continue to try to escape. On May 17, 2022, the Ukrainian forces, despite Herculean efforts, surrendered. The brutal siege killed 20,000 civilians and destroyed 90 percent of the city. The afterword, set in January 2023, paints the current picture of U.S. and NATO support. Putin attempts to break the resolve of the Ukrainians by targeting hospitals, housing, and water and electrical plants. There is no happy rebuilding story to make readers feel better. VERDICT An important piece of history in progress is captured here, and readers will not fail to be moved. An important purchase for high school libraries.-Elisabeth LeBris © Copyright 2023. SJH	A comic book history of the Big Bang and beyond	Claybourne, Anna	5-8	2026	9781525315039	Hardcover	School Library Journal starred (March 1, 2026) Gr 5-8-Cousin prospectors Phil Arnold and John Slack walked into financier George Roberts's office in San Francisco in November 1870 and asked him to hold a bag of stones for them overnight. And thus, began what came to be known as the Great Diamond Hoax. Arnold and Slack soon had a group of investors eager to purchase the land on which the so-called diamond mine existed. Circumstances of the time permitted the cousins to pull off the crime by "salting" a remote corner of land-planting fragments of purchased rough diamonds and rubies-along the border of Wyoming and Colorado. Hundreds of people became involved directly or indirectly through newspaper reporting and rumors, further driving the diamond fever. Only the efforts of geologists interested in protecting their reputations led to the hoax's discovery. Using his extensive research into the people involved, as well as the time and place in which it occurred, Sheinkin presents readers with a compelling story of bold lies, pervasive deal-making, and surprising gullibility. Reading like a crime novel, readers will eagerly turn the pages looking for answers. The inclusion of short graphic novel introductions to each of the six sections of the book adds to the feeling of immediacy. Extensive back matter includes source notes, a bibliography, and an index, along with a glimpse into the author's research activities. VERDICT A must-purchase for collections where true crime and nearly unbelievable historical tales are popular.-Heidi Grange © Copyright 2026. RECHS	A Cuban girl's guide to tea and tomorrow	Namey, Laura Taylor	YA	2021	9781534471252	Paperback	School Library Journal (October 1, 2020) Gr 7 Up-Lila has led her life following every instruction, much like she does with her beloved family recipes. Nestled in Miami, Lila has been surrounded by her Cuban family and has her life planned out after high school-take over her abuela's bakery, move in with her best friend, and keep seeing her boyfriend Andrés. But even recipes that are tried and true can sometimes fall apart. Lila's best friend Stef wants to do missionary work in a rural village in Africa, Andrés breaks up with her, then the worst thing happens-her abuela passes away. Lila is left numb and, in an attempt to feel something, she goes for a run that lasts hours without telling anyone. Worried, her family makes the decision to send Lila to England to stay with family. There, Lila misses her Cuban family, sunny weather, and her old life. She is stuck in the past and can't seem to move on. New scenery helps Lila reflect on her life and bring into focus what she wants, which may not be what she thought it was. It also doesn't hurt that she meets a cute boy named Orion. Like so many children of immigrants, there is a sense that first-generation children should have careers thought out, and Lila is realizing that she has power over her life's direction. The teen's sweet love story and desire to find herself while trying to stay connected to her Cuban heritage is a relatable message. VERDICT Readers who have often wondered about stepping outside their comfort zone can find courage in Lila's story.-Katie Llera, Brunner Elem. Sch., Scotch Plains, NJ © Copyright 2020. RECHS	A far wilder magic	Saft, Allison	YA	2024	9781250322340	Paperback	School Library Journal (March 1, 2022) Gr 7 Up-The Halfmoon Hunt has come to Margaret Welty's village and the redwood forest that surrounds it. Hunters from all over the world come to try to kill the last living hala, a legendary fox whose body parts offer incredible magical properties to alchemists. Wes, an unlicensed alchemist with undiagnosed dyslexia, is in desperate need of a mentor, and Evelyn Welty is the last alchemist left. When Wes ends up at Margaret's door in search of her ever-absent mother, they realize that the Halfmoon Hunt they want no part of could give them exactly what they desire most. For Margaret, that means rare alchemical supplies that would make her mother return home, and for Wes, it means proof that Evelyn would find him a worthy apprentice. Margaret is best described as a cactus with abandonment issues, while Wes works hard for his cheerful optimism as Saft leans into the sunshine/grumpy romance trope. Her sophomore novel has her signature lush prose and evocative settings, with dynamic characters who pull the plot along in its slow moments. The world of New Albion mirrors political-cultural tensions of history, with Wes's family being Banvish and experiencing similar discrimination to what Irish people faced in early 20th-century America, while Maggie is Yu'adir, coded Judaism, and there are discussions of prejudice and Yu'adir facing massacres overseas, akin to the pogroms of that period. Readers should be aware of this version of anti-Semitism, as well as animal death and injury. VERDICT This read-alike to Maggie Stiefvater's The Scorpio Races is worth purchasing. While there are heavy topics, this fantasy fills a familiar plot arc with a unique setting, cast, and a lovely romance between two characters who are considered outsiders by society at large.-Emmy Neal © Copyright 2022. RECHS	A forgery of fate	Lim, Elizabeth	YA	2025	9780593650622	Hardcover (library binding)	School Library Journal (November 1, 2025) Gr 7 Up-Tru Saigas, a talented art forger who can predict the future, is desperate to protect her struggling family from a ruthless debt collector. When the mysterious and forbidding half-dragon Elang offers to save them in exchange for marriage and her help in breaking a deadly curse, Tru agrees-especially after she uncovers clues suggesting her missing father might be alive in the dragons' underwater kingdom. As Tru explores her new home, she uncovers dangerous secrets but also realizes that the monster she married might just be her true love. Narrator Mirai's performance feels genuine and brings Lim's myth-rich story to life. Mirai ably handles complex words and vocally shows Tru's emotional depths and character growth. While the middle of the book feels dense and a few plot outcomes are overly neat, Mirai keeps the pace lively, making for an engaging listen. VERDICT This enchanting take on "Beauty and the Beast" is recommended where fantasy and immersive folklore are popular.-Claire Covington © Copyright 2025. SJH	A home for Lucy	Levitt, Mike	5-8	2026	9781459420601	Hardcover (library binding)	School Library Journal Xpress starred (June 26, 2026) Gr 4-7-An innovative sci-fi novel in verse featuring Leo, a Latine middle schooler who spends most of his time immersed in the virtual reality game DreamWayz. While nearly every other teen-including his twin sister, Loni-has moved on to the newer, more mature VR game Pixelated Penguins, Leo is perfectly content in the comforting familiarity of his digital world and online bestie Roxy. But everything begins to change, and Leo can't ignore the disturbing signs emerging around him. Someone mysteriously attempts to contact him through DreamWayz, and an even more terrifying warning appears on his school Chromebook: the word "beware" flashes repeatedly across the screen moments before the device bursts into flames. Meanwhile, he's noticing people acting strangely, sometimes violently, while wearing their VR helmets. As the line between the virtual and real worlds begins to blur, Leo starts to wonder if the gaming world is somehow taking control of reality itself. Told through Leo's authentic middle school voice, this hi-lo story written at a second-grade level captures the anxieties of adolescence, as the safety and certainty Leo finds in his virtual world contrast sharply with the social pressures and physical changes he struggles to face in real life. VERDICT In this suspenseful sci-fi novel in verse, a tween must uncover the dangerous connection between a VR game and the strange events taking over the real world before it's too late; highly recommended.-Julie Shatterly © Copyright 2026. RECHS	A house of rage and sorrow	Mandanna, Sangu	YA	2024	9781510776142	Paperback	Booklist starred (October 1, 2019 (Vol. 116, No. 3)) Grades 9-12. Mandanna's heart-stopping sequel to A Spark of White Fire (2018) follows a determined Esmae, still reeling from the murder of her best friend at the hands of her once-beloved brother Alexi. The galaxy prepares for battle as mortals and gods take sides in an impending civil war that they all know will tear their worlds apart. Esmae needs to be certain that the odds are in her favor; political maneuvering can get bloody, but she is willing to blur the lines of morality to secure allies and stay one step ahead of Alexi, who threatens to unleash a beast far more terrifying than her indestructible warship Titania. Plot twists abound as Esmae realizes she only scratched the surface of the secrets that plague the House of Rey. She must push the limits of how far she'll go to shatter the golden image of her brother, before making the ultimate decision between clinging to the elusive hope of family or waging a catastrophic war. Told through the perspectives of Esmae and the sentient Titania, Mandanna's narrative delivers on her captivating start to the trilogy inspired by ancient Indian epics. The high-stakes, lofty narrative reads like a mythology story of its own, as the lives of gods, mortals, and spaceships are intricately connected, setting up for what's sure to be a breathtaking conclusion.
RECHS	A most perilous world : the true story of the young abolitionists and their crusade against slavery	Gaddy, Kristina R	YA	2025	9780593855522	Hardcover	School Library Journal starred (June 1, 2025) Gr 8 Up-Gaddy follows the friendships, romances, ambitions, and insecurities of four teenage children of famous abolitionists who grew up steeped in their families' fervent values and lifestyles, becoming staunch abolitionists themselves. Gaddy's documentary-style use of newspaper clippings, personal letters, and alternating third-person narration relates the lives of George Garrison (son of William Lloyd Garrison), Lewis Douglass (son of Frederick Douglass), Lucy McKim (daughter of Miller McKim), and Charlotte Forten (granddaughter of James Forten) from the early 1850s through the Civil War. The story of each is unique, but the abolitionist circle was small, so their lives intertwine. Both Lewis and George were not content to help run their fathers' newspapers, bristled under their family's wishes, and went off to fight for the Union during the war. Charlotte was a dedicated educator of African Americans, had poor health, and married into the prominent Grimke family. Lucy studied and taught music, published the first collection of songs by the enslaved, and married Wendall Garrison, George's brother. Gaddy's meticulous research is well documented with an extensive bibliography and detailed source notes (index not seen). Hand this to history buffs, historical fiction fans, and teens who enjoy coming-of-age stories. This is also a good choice for reluctant readers assigned to read a book with primary sources. Readers will feel like they are visiting old friends as the pages fly by in this captivating narrative nonfiction that pulls at the heartstrings. VERDICT An intriguing offering that shines a light into a lesser-known aspect of the American abolitionist movement. Highly recommended.-Karen T. Bilton © Copyright 2025. Encouraged by parents who valued education, Jackson developed the drive and discipline that carried her from the high school debate team to Harvard and later helped her navigate the demanding roles of lawyer and mother of two. Through personal stories and quotes from those who knew her, Jackson's spirit, intellect, and fairness shine throughout this book. Each chapter traces her life and achievements while weaving in pivotal moments from Black history. At times, these connections follow a meandering path-for instance, a Confederate flag displayed on a college dormitory wall leads to discussions of the Civil War, Reconstruction, the Ku Klux Klan, and the Voting Rights Act. However, by linking Jackson's experiences to the broader struggles and progress of African Americans, the authors place her historic appointment in powerful context. Back matter includes an index, endnotes, and bibliography. VERDICT More than a biography, this work situates Ketanji Brown Jackson's success within the larger narrative of American Black history, offering both inspiration and insight.-MaryAnn Karre © Copyright 2026. RECHS	A reckless oath	Smith, Kaylie	YA	2024	9781368081634	Hardcover	Kirkus Reviews (January 15, 2024) In this sequel to A Ruinous Fate (2023), members of the ensemble cast fight for their goals despite setbacks and danger. Trapped in the Neverending Forest, Calla, Gideon, Caspian, and Hannah are struggling after the death of Onyx Prince Ezra, Gideon's younger brother, and the kidnapping of the siren Delphine. Even as they attempt to escape the forest, bring Ezra back to life, and rescue Delphine, the war looms ever closer. Meanwhile, Delphine, who was horrifically tortured by Reniel (the sadistic former leader of her Shoal) as punishment for leaving him, plots her escape by feigning submission and remorse. Lastly, the Valkyrie Amina, having stolen Ezra's heart, is finally free of the forest, and she flies home to exact her revenge against the Valkyrie queen, only to discover that society and her friends have changed. Despite intriguing mini-quests and plot developments, the pacing drags, and the rotating points of view lessen the tension, although the inclusion of Gideon's and Delphine's viewpoints does add welcome depth to the relationships. Delphine's flashbacks and self-analysis, in particular, are empathetic, even though the torture scenes become repetitive. The depictions of corrupting power and societal inequities and control are intriguing but limited by centering on the seemingly one-dimensional antagonists. The strong, well-depicted focus on friendship and love is uplifting and provides a thematic thread despite the diluting rotating narration. The cast contains fantasy diversity. Unlikely to win new fans, but returning readers will find elements to appreciate. (map, character glossary) (Fantasy. 13-18)

SJH	A scar like a river	Graff, Lisa	5-8	2026	9780316570800	Hardcover	School Library Journal Xpress (May 29, 2026) Gr 8 Up-Since the day she first drove a racing kart, Justine Kwong has had one goal-to become the first female Formula 1 champion. Securing a driver position in Formula 3 and moving to Europe means she's one step closer to that goal, but being the only woman in an incredibly competitive field of male drivers comes with a variety of challenges. From being mistaken for an intern to being called a diversity hire, Justine is battling for her position on and off the track. Things get even more complicated when she starts to have more than just competitive feelings for her biggest on-track rival, her teammate Cameron. And then a catastrophic scandal happens, and the double standards of the racing world mean Justine will have to pull off a miraculous recovery to keep her championship dreams on track. This story deftly balances the fun and flirtation of a rivals-to-lovers romance with the challenges of being a woman in a male-dominated field; Justine's struggles to be taken seriously and the higher standards for her behavior will resonate with many readers. Secondary characters can suffer a bit from being two-dimensional and inauthentic, and they do not feel fully fleshed out. Justine and her mother are Asian; all other characters are presumed white. VERDICT A solid addition to sports romance collections. RECHS	Accomplice to the villain	Maehrer, Hannah Nicole	YA	2025	9781649378545	Paperback	Kirkus Reviews (July 15, 2025) In Maehrer's comic fantasy romance, a bubbly underling continues to rise even as she crushes on her evil boss. Evie Sage has always been an odd fit for the role of apprentice to Trystan Maverine, who, in his role as The Villain, is responsible for causing mischief and mayhem in the kingdom of Rennedawn. Trystan is, as one might expect from a Villain, curmudgeonly and misanthropic, while Evie is as bright and cheerful as a ray of sunshine. Despite their vast differences in personality, it is becoming clear to everyone who works at Trystan's Massacre Manor—especially Trystan's best friend, Alexander William Kingsley (who used to be a man but has spent the last 10 years trapped in the body of a frog)—that Trystan and Evie have developed an unacknowledged romantic connection. Far from making for a productive working relationship, the tension is causing problems around the Manor, as "the two would sooner knock their heads together than confront their unspoken feelings." The mutual crush could not come at a worse time, since the magic in Rennedawn is waning and the Villain is racing against King Benedict to fulfill a prophecy and become the "true prince" who restores magic to the kingdom. Can a Villain ever accept love and become a true prince...and can a Villain's accomplice do her job without losing her sunny disposition? In this installment of her Assistant to the Villain series, Maehrer continues to effectively mine the fantasy setting for sendups of contemporary office culture, from uncooperative Curse Consultants to form-obsessed Human and Magical Creature Resource officers. "Trystan knew when he became The Villain that he would always be the one to make the hard decisions, even the unpopular ones," writes Maehrer with typical wryness. "It was a job he rather enjoyed, in all honesty, but there was one standard office practice even he vowed never to adhere to. Meetings." The busy plot may prove difficult for new readers to enter, but fans of the series will appreciate this latest episode. A clever, tongue-in-cheek romantasy about workplace opposites attracting.
