CHASE 100!

Celebrations

Awards Breakfast:

On Tuesday October 27th, we had the opportunity to honor students who achieved a GPA of 3.88 or higher. In addition, students who earned all A's and B's were recognized during our assembly on Friday. Congratulations to all of these students for their academic excellence and for **Chasing 100** throughout the year. We are proud of their hard work, dedication, and commitment to success.

At the Middle School, we talk about **CHASE 100**. CHASE 100 is more than a slogan. It represents a mindset. It means giving 100% effort, 100% of the time, regardless of the obstacles in front of us. It means choosing excellence not because it is easy, but because it is worthwhile. The students we honor have embraced that challenge and demonstrated what happens when effort, determination, and character come together. It is about being better than you were yesterday.

These students have also learned an important lesson: success often belongs to those willing to **go the extra mile**. The extra mile is where preparation happens. It is where students ask one more question, revise one more draft, read one more chapter, help a classmate, or refuse to give up when the work becomes difficult. The extra mile is rarely crowded because it requires commitment, but it is where growth, achievement, and leadership are found.

Our Honor Roll students have shown us that excellence is not about being perfect. It is about consistently striving for improvement, setting high standards, and making choices that move them forward. They have modeled the habits that lead to success both inside and outside of the classroom.

Congratulations on your achievement.

Outdoor Education Trip (See pics at end of report)

Thank you to our staff for their incredible dedication and support during our 6th Grade Outdoor Education trip to Estes Park. Their willingness and desire to step away from the classroom and into the mountains helped create a truly meaningful experience for our students.
Their leadership, patience, and enthusiasm were felt by everyone, especially our students, who benefited immensely from their guidance and encouragement. Whether it was helping them navigate a trail, leading a group activity, or simply being a steady presence, they made a lasting impact.
This trip wouldn't have been the same without them. Thank you for being such an important part of our PVMS team and for helping bring our mission to life in such a powerful way.

Outdoor Education: A Powerful Learning Experience
Last week, our 6th graders embarked on an unforgettable Outdoor Education trip to Estes Park, where they engaged in hands-on learning that extended far beyond the classroom. Students had the opportunity to:

- Explore elk ecology and understand wildlife behavior in its natural habitat
- Dive into water ecology, learning about ecosystems and environmental stewardship
- Practice map reading and wilderness survival skills
- Participate in team-building activities that foster collaboration and resilience

These experiences not only enriched their understanding of the natural world but also reinforced the core values we promote every day at PVMS—pride, respect, teamwork, self-discipline, and leadership.
I want to extend a heartfelt thank you to Colette Hunt for the incredible time and energy she poured into organizing our 6th Grade Outdoor Ed trip to Estes Park. Her commitment to creating a meaningful and enriching experience for our students was evident in every detail-from the planning stages to the final hike. Because of her leadership and dedication our students were able to explore, learn, and grow in ways that are simply not possible within the classroom walls. Thank you for being the driving force behind this amazing opportunity. Your impact will be felt for years to come.
