Subject:
Discussion of Districtwide District Vulnerability Assessment Report

Background:
The Texas Education Agency conducted a District Vulnerability Assessment at one or more of our campuses. This audit examines the safety and security of district campuses as well as the overall safety posture of the district. This audit helps identify how we can improve safety for our students, such as ensuring exterior doors are closed and locked. We are working closely with district and campus administrators to ensure we are training all our staff and securing our schools for the protection of everyone at our campuses. A District Vulnerability Assessment is just one of the many actions we are taking to ensure our schools are safe.

Specific details of the District Vulnerability Assessment report and corrective actions were discussed in executive session.
