CREW (Center for Reigniting the Educator Workforce)
Grow Your Own Grant Awarded–Planning Amount

The West Central Texas Collaborative is comprised of:

- Clyde CCISD
- Colorado ISD
- McMurry University
- Cisco College
- ESC Region 14
- West Central Workforce Solutions

The collaborative applied and was awarded the CREW Grow Your Own Grant of $75,000 for planning and standing up a grow-your-own program in our region.

The group focused on two possible pipelines to the classroom:

- Paraprofessional to teacher
- High school education and training students to be teachers

Paraprofessionals and education and training students submitted an interest survey.

Additional funding is potentially available from the state through the LASO 5 Grant.
