Action Item No. 2 Board Meeting 11/11/26

Consider Ratifying Acceptance of Houston Endowment Implementation Grant

Houston Endowment has notified Galveston College that it has approved a $3,000,000 implementation grant to support the alignment of dual credit pathways with student completion and transfer goals. The three-year grant period will extend from November 1, 2026, through October 30, 2029. The grant will support initiatives designed to support dual credit students during high school, throughout their transition to Galveston College, and as they prepare to transfer to a university. Grant-funded initiatives will include programs to address students' basic needs and facilitate a smooth transfer to a four-year university.

It is recommended that the Board of Regents ratify the acceptance of this grant award.
