F. Administrative Recommendation: The administration recommends the Board adopt names for the facilities following discussion and review of the naming presentation and report.
Advantages and benefits of this proposal: New schools must have names. Other facilities may have names. In all cases in this recommendation, the names would honor people who have contributed to Hays CISD and the greater Texas public education community.
Expected results in terms of student benefit/achievement: Students will learn in facilities named after people who can serve as inspirations or role models.
Effect of this action on other parts of the system: The entire system would be affected regarding the names of facilities and schools.
Consequences of not approving this recommendation: Schools must eventually have names. Parts of schools or non-school facilities do not have to have names, however, not approving the recommendation would be a missed opportunity to honor local Hays CISD contributors.

G. Fiscal Impact and Cost: N/A
