Tribal Consultation
The King Island Native Council did respond to an email requesting an opportunity to present to tribal councils by forwarding the request to tribal council members, but no further response was received. We will reach out again to schedule a meeting to discuss both our grant budgets for the year as well as input on the FY28 budget in the next several months.

Financial/Legislative Update
The FY26 audit is complete and the audit report will occur in December, along with an FY27 Budget revision.

With the strong likelihood of a governor who has expressed a desire to support education, combined with the new organization in the House and Senate, we are optimistic about seeing legislation that can be supportive of public education take precedence during the upcoming session. An education commissioner has yet to be announced.

I have requested an opportunity to present my Annual State of the Schools Presentation to the Nome City Council, and also to have a joint work session to discuss the City's contribution to the district for the coming year. I will inform Board members when those dates are set.

Strategic Plan Action Plan
The Action Plan is complete, but I would like to present this to the Board during the November Work Session.

Portrait of a Graduate
Ms. Trigg, Ms. Tapqaq and I presented to attendees at the AASB Annual Committee about our progress to date, and the session was well attended and had very positive feedback. We will be meeting with Lori Grassgreen with our original steering committee to make plans for our assessment and evaluation system, as well as our rollout to staff.

A parent Check and Connect event was held in October and added this section to our PoG work. A big thank you to Emily Ferry from AASB for facilitating the event, and also holding conversations with students for some feedback on the "I Can" statements.

NBMHS Roof Project Update
The project is still waiting for the delivery of the metal siding which should occur this week. However, even with the significant precipitation occurring during the month of October, no further leaks have been reported inside NBMHS.

The resolution with UICC has been completed and final payment made. We have sufficient funds remaining to complete the following projects with Run It Wild, LLC as the contractor: painting of classrooms under the repaired roof section, replacement of hallway carpeting under the repaired roof section, and replacement of roof tiles for some of the classrooms under the repaired roof section (drop ceilings only). These will be coordinated with NBMHS administration and occur during the next several months.

Outstanding Board of the Year Award

Our Board was selected to receive this award during the AASB Annual Conference. We also receive a free registration for a student to attend the Youth Advocacy Institute in the spring. This award is well-deserved for the strong leadership and dedication of our board members to the education of our community's youth.

Enrollment in October 2026 = 672

Note: 1 of the dropouts has enrolled in a GED program, the remaining students were dropped from Nanut Homeschool for noncompliance.

ENROLLMENT REPORT - 11/7/26
