BP 6141 CURRICULUM DEVELOPMENT AND EVALUATION

The School Board shall provide a comprehensive instructional program to serve the educational needs of the district's students. The School Board accepts responsibility for establishing what students should learn. Therefore, the School Board shall adopt a district curriculum which to the extent possible reflects the desires of the community, the needs of society, and the requirements of law.

Curriculum development and improvement is of primary importance and as such will be part of an ongoing process in this district. The Superintendent or designee shall have general coordinating authority over the design and development of curriculum. The Superintendent or designee shall develop a process for curriculum review and development which shall include the participation of teachers, administrators, students and parents/guardians. The School Board recognizes that effective curriculum development requires the planned allocation of resources, staff time and in-service training.

(cf. 6161.1 - *Selection and Evaluation of Instructional Materials)*

The curriculum shall be consistent with and aligned to established state standards and the philosophy, goals and objectives of the district. The Superintendent or designee shall keep the School Board informed regarding current district curriculum efforts and student achievement. The Superintendent or designee shall provide all necessary assistance to the School Board in reviewing reports, information and data on each curriculum area for evaluation and adoption by the School Board. Prior to adoption of districtwide curriculum, the School Board shall discuss its findings with the staff, community and students.

The School Board may adopt a curriculum review cycle for each area of the curriculum which shall serve as the timeline for districtwide curriculum development. The School Board shall review each content area at least once every six years.

Learning will be enhanced by an adherence to an integrated curriculum that promotes continuity and cumulative acquisition of skills and knowledge from grade to grade and school to school. Teachers are to align their teaching to district standards and curriculum.

(cf. 6190 - *Evaluation of Instructional Program)*
