School Board Update for
November 12, 2026

Interim Assessment Data & The Oregon Accountability Act

Beginning in Fall 2026, the Oregon Accountability Act (SB 141) mandated new standards for adopting, administering, and reporting K–8 interim assessments in Language Arts and Math.

From the four state-approved providers, our district selected i-Ready for Math—an interim assessment we have successfully utilized at the K–8 level for several years—and MAP for Reading. This year marks our second year of MAP Reading testing for grades K–5 and the inaugural year for middle school students.

Administered three times annually (Fall, Winter, and Spring), these assessments track baseline performance. While MAP Reading results were previously shared during District Scorecard presentations, the report below provides the Fall 2026 data for Reading K-5 and Math K-8. Reading 6-8 data is being processed and will be reported to the board next month.

From Classroom to Campsite: Sixth Graders Discover Nature at Outdoor School

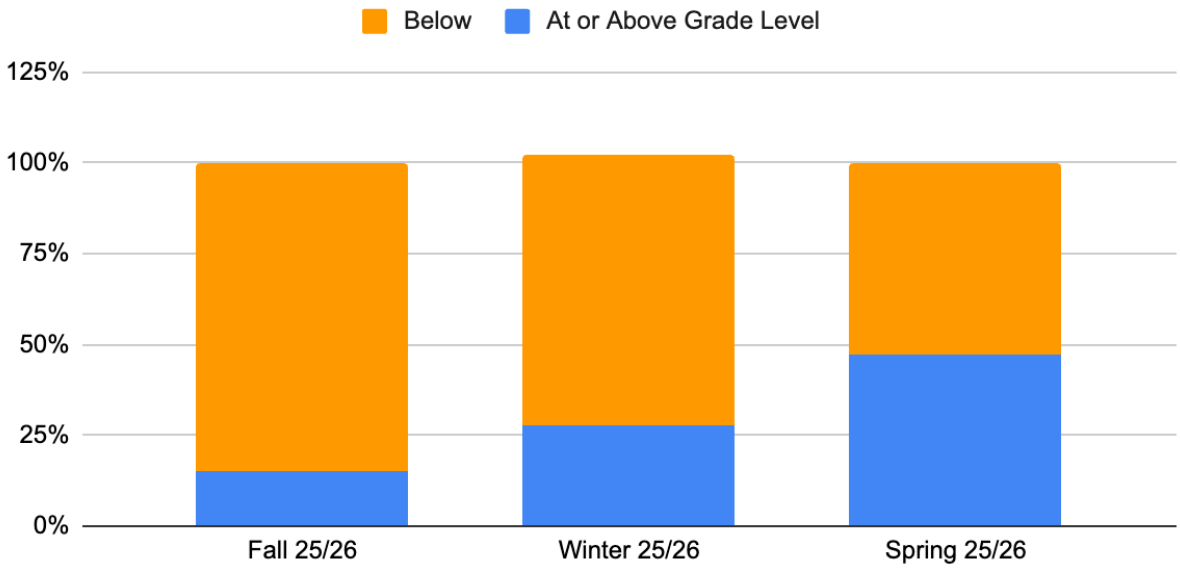

Seven teachers and two assistants, along with 111 curious students, attended Outdoor School at Trickle Creek, a forest site located in Salem. The group spent two nights and three days. Initial reports indicate that weather conditions were ideal, and students expressed high satisfaction with the dining options, cabin accommodations, and evening campfire activities. Overall, the trip proved to be a highly successful and engaging educational experience.
