10/28/2026 20:5	Look like the original, no concerns.	No concerns, this looks great.	I have not read this specific book, but Alan Gratz books are really well done and keep student interest. No concerns.
10/28/2026 20:5	No concerns	Is this necessary, putting computers in front of students to help them practice? They can't do it without a computer? Practice takes discipline and you don't need a computer to learn that skill-discipline. Why are instructors not teaching them the discipline needed to be successful-something that all teachers should be teaching. Do not recommend.	Wow. This is heavy. I recommend with lots of conversation about and care.

10/29/2026 17:2	Approved	Approved	Not a great review source.
11/3/2026 9:00:	A needed classic that is becoming more and more relevant as the years go by. Approve!	If the teacher needs it, I trust their judgement.	Great book, trusted author! Highly recommend and has my full approval.
