Winter Sports Numbers High School:

Girls Basketball – 13 Girls (1- Senior)
Boys Basketball – 14-17 Boys (0 -Seniors)
Boys Wrestling- 15-20 Boys (2 Seniors)
Girls Wrestling- 2-4 Girls (1 Senior)
Dance Team—Looking to be back this year with 8-10 girls-Competition events

Transition to Winter Sports:

- Meet with coach weeks before the season- go over schedule and needs
- Send out transportation schedule to review
- Run a winter sports meeting in the gym with all coaches present to meet athletes and potential new athletes and encourage athletes to go out in mid/late October
- Go over list of kids that did not sign up and get to coaches to contact if they want, attend first practice and go over kids we should encourage to go out
- Coaches will run a meeting with parents/players during first week of practice

Sports Retention High School:

- Based on the success of the program- we will see an increase if a program is successful.
- Winter sports usually has the most athletes that don't stick it over a 4-year period.
- Numbers from MS to HS will drop off some as we promote participating in a sport in the middle school to see if it is something you want to pursue in high school.
- On Staff Coaches- we will see more students out for those sports as coaches have access to those students more frequently.
- All three sports in Fall saw and increase in participation
- Enrollment is 190
- Amount of Male/Female per class effects participation (example 40 in grade only 12 are female)
- Some Students focus on other extracurricular activities that are not in sports
- More students are getting jobs than in the past

- Numbers were low from youth level to start- Winter moving 6th grade up in BBB and GBB last 5 years and 6th grade participates in WR.
- Some athletes are not allowed to go out for more than one or two sports so they have to chose
- Winter season is the longest and most demanding with late nights
- Numbers have maintained even with enrollment drop in all sports in high school
