On roll call, the following voted "aye": Acevedo, Copeland, Dorholt, Fenton, Haws, Weems. Abstained: Andreasen. Motion carried.

III. INFORMATION ITEMS

Moved by Dorholt, seconded by Copeland to switch the order of the two Information Items to allow time for a student guest to arrive.

On roll call, the following voted "aye": Acevedo, Andreasen, Copeland, Dorholt, Fenton, Haws, Weems. Motion carried.

A. Superintendent Goals

Superintendent Laurie Putnam provided an overview of the five goals for 2026-2027 which are aligned to the District 742 Strategic Plan for 2025-2028.

- Coherent Tier 1 instruction
- Integrated student supports
- Culture of high care and high accountability
- Family and community partnership
- College, career and CTE pathways

The goals will be governed by monthly Superintendent's Cabinet review, quarterly stop, continue, and redesign, and ongoing program effectiveness.

B. Student AI Senate

Molly Kensy, Tech High School Principal, along with two students provided an update on their trip to Boston this summer to attend the Student Senate on AI Policy. All 50 states were represented with 100 student senators in one room at EMK Institute with a Senate Chamber replica. The Committee included students, teachers, administrators, and parent/guardians and the debates included How AI should, or should not, be used in K-12 classrooms.

Students learned about student voice, AI literacy, equity, and responsible innovation which matters as AI policy shapes our learning, so students belong beside administrators and tech companies.

Recommendations for District 742 include:

- Create a student advisory group to work alongside administrators and teachers as district AI policies are updated. Student perspectives ensure guidelines are clear, realistic, and focused on academic integrity.

- AI literacy for every student. AI literacy shouldn't be limited to computer science. We're partnering with student leaders and staff to integrate quick, accessible lessons on evaluating AI outputs, recognizing algorithmic bias, and protecting privacy across all subjects.

- Guidelines that keep learning human. Foster spaces where staff and students can experiment with AI tools together openly, creating a culture of trust.

The students' challenge to the School Board – The rest of the country is trying to figure out AI in education; we have an opportunity right now to show them what student-centered leadership looks like. We challenge the Board to take these recommendations and build policies with us, not just for us.
