Lincolnshire-Prairie View School District 103

Memo

To: Board of Education
From: Eric Jonasson CPMM, CPS
CC: Dr. Katie Reynolds
Date: November 11, 2026
Re: Facilities Update

Daniel Wright Jr High

- The heating systems have been started at Daniel Wright for the cooler temperatures we have experienced in the fall mornings. The system is operating as expected and the alterations made over the summer are conditioning the areas as needed.
- We had our 2027 HVAC Updates bid opening on November 4th. We will be presenting the board the district's recommendation to award the winning bid to MG Mechanical who came in with the lowest bid. This project will address the replacement of 7 rooftop units noted on the 10 year HLS Survey.

Half Day School

- Soffit and facia repair has been completed at Half Day School on the east side of the building. There was a strong wind storm in early September that disrupted the east side of the building's roof line. Temporary repairs were made to ensure the structure was water tight until materials could be acquired to make the necessary permanent repairs.

Laura Sprague

- Anderson Lock was onsite for two days earlier this month to make a few corrections at multiple doorways at Sprague. The repairs included threshold repairs and weather stripping replacement to ensure proper door seals and security.
