LEADERS IN LEARNING

Lincolnshire-Prairie View School District 103

Memo

To: Board of Education
From: Katie Reynolds
Date: November 12, 2026
Re: Illinois School Report Card

Each year, the Illinois State Board of Education publishes the Illinois State Report Card, which provides information about student achievement, academic growth, attendance, school environments, staffing, enrollment, and district finances.

The 2026 Report Card introduces a new system for evaluating and designating schools called Profiles of Performance. I am pleased to share that all three D103 schools, Sprague, Half Day, and Daniel Wright, earned an Exemplary designation.

This recognition reflects the work of our students, teachers, staff, families, and school communities.

Understanding the New School Designations

Beginning this year, Illinois replaced its previous school designation system with six performance levels:

- Exemplary
- Approaching Exemplary
- Commendable
- Developing
- Comprehensive
- Automatic Comprehensive

Under the previous system, only approximately 10% of schools statewide could earn Exemplary status. The new system evaluates schools against established statewide expectations rather than limiting recognition to a certain percentage of schools.

The new system considers multiple measures of school performance, including academic achievement, student growth, attendance, and progress among English learners. This broader approach provides a more comprehensive picture of school performance and student outcomes.

Additional information about the new Profiles of Performance system and D103's results will be shared with the Board of Education at the November Board meeting.

Additional Information: The full interactive district and school report cards are available at IllinoisReportCard.com.

Summative Designation

The Every Student Succeeds Act (ESSA) requires every state to measure school performance, establish long-term goals for student outcomes, and identify schools that need additional support. Illinois' accountability system, Profiles of Performance, brings together multiple measures of student outcomes, progress, engagement, and school experience while keeping the individual measures visible. There are five performance levels that apply to each indicator and the overall profile. Because Profiles of Performance reflect multiple measures, different combinations of Core, Elevating, and student group performance can result in the same overall profile.
