MILLSAP ISD
Your child. Their dreams. Our mission.

BOARD OF TRUSTEES

Date: November 16, 2026 Prepared By: J. Clark

Subject: Discuss and Consider Purchase of Network Infrastructure Components

Action

BACKGROUND INFORMATION:

Millsap ISD participates in the E-Rate system. This system allows the district to purchase network components at a reduced rate. Once we have received the items and submitted verification of payment, we are reimbursed 70%. This system allows us to upgrade and/or expand our network at a substantially reduced cost. The bids are awarded through competitive bidding to ensure a fair price. This past cycle we identified the bid from Titanium Technologies for the improvement of our battery backup system.

RECOMMENDATION:

Approve the purchase of new battery backup components to support the network.

BOARD ACTION REQUIRED

Proposed Motion: “I move to approve the purchase of battery backup components for a price not to exceed $55,000.” .
