Resource
Lighting + Energy

Bristol Phase II Summary

Scope-Of-Work to Include:

- Step-Down Transformers
- Aerators
- Steam Trap Surveys and Trap Replacements
- Hot Water Pipe Insulation
- Exhaust Kitchen Hood Controls
- Networked Lighting Control Upgrades
- Variable Speed Drives (VFDs)
- Weatherstripping
- DCV Controls
- Full DDC Modernization with West Bristol School

Utility Summary:

- Eversource will provide a total incentive in the amount of $1,537,498.
- Project will generate annual savings of $195,695.
- On-Bill financing available for full project cost at 0% interest.

Additional Things to Note:

- Like the Phase I lighting project, there are zero upfront costs and zero costs through project construction/completion. Full project cost paid by Eversource directly to RLE.
- There is NO binding agreement until the utility completes their engineering study, issues a Letter of Agreement (LOA) and the LOA is reviewed, approved and signed off on by the City of Bristol BoE.
