SAFETY

Nonviolent Crisis Intervention – The training on De-escalation Basics for CPI was conducted on September 8, 2026. This program is an online training that gives our staff members the skills to handle all types of situations that may arise in a school setting with students. As of October 30, 2026, we have over 92% that have completed the training. We plan on having everyone trained before the Holiday break.

As of October 30, 2026, we have 95% of our staff that has completed the ALICE training. Many of our sites have completed their first lockdown training including the District Office Staff. All sites will have completed the first lockdown drill before the Holiday break.

Emergency Buckets have been delivered to all sites. Every classroom has an updated emergency bucket at each site. We are also utilizing our student activities charters to get emergency water sent to all sites. We are hoping to have at least a case of water for every certified staff member in teacher housing at site before weather get severe. Principals will store the water for emergency and hand it out as needed.

SITE SAFETY INSPECTIONS

I continue doing my safety inspections at sites this year. I have completed six of the eleven sites thus far. I use the Checklist provided by our insurance company, APRA. I also check for emergency flip charts, emergency buckets, batteries and updated pads in the AED's, dates on the naloxone that is used for emergency overdoses, fire extinguishers, fire alarms, clear and identifiable exits, and other safety issues. The visits are going very well with very few deficiencies.
