## Technology

Initial Rollout Fall 2023

# Bring all of our new buildings online and ready for instructional use and shut down the old schools.

*Philosophy:*

**Rock Ridge is committed to providing all K-12 students with a digital device to aid in their learning.**
**Rock Ridge is committed to providing all teachers with a digital device to aid in their instruction.**
**Rock Ridge is committed to providing a reliable network and instructional systems.**
**Rock Ridge is committed to providing secure and safe facilities.**

**WIG: Build and bring from none in July of 2020 to all of our new buildings online and ready for instructional use and shut down the old schools by June of 2025.**

| EXPLORING | EMERGING | SUSTAINING | EXTENDING |
|---|---|---|---|
| • Some grade levels are 1-1 but not all students have a device.<br>• Staff have access to a computer.<br>• Classroom AV systems are installed, but not fully functioning.<br>• Door access components installed, but not functioning<br>• Camera Security system installed but not functioning<br>• Usable technology components not identified in old buildings.<br>• District begins thinking about hiring individual for managing public and building performance technology. | • All high school students have a device.<br>• All staff have a laptop.<br>• Classroom AV systems are installed, and working, but staff don't know how to use them.<br>• Door access components installed, some but not all staff have appropriate access.<br>• Camera Security system installed but not archiving.<br>• Usable technology components identified in old buildings.<br>• District has processes and procedures in place to hire individual for managing public and building performance technology. | • All students K-12 have a device.<br>• All staff have a laptop and tablet device.<br>• 90% Classroom AV systems are installed and working, staff are trained how to use them.<br>• For security and safety, all door access components installed, all staff have access to the buildings they need.<br>• For security and safety, all camera security systems installed and provide a month of archived video.<br>• Usable technology components identified in old buildings and removed for sale or re-use.<br>• District has individual hired for managing public and building performance technology. | • All students Pre-K-12 have a device.<br>• All Staff have both a laptop and tablet device that are used to provide a collaborative learning environment.<br>• Classroom AV systems are installed and working, staff are using these systems for collaborative teaching and student led instruction.<br>• Door access components installed, all staff have access to the buildings they need.<br>• Camera Security system installed and provides a month of archived video.<br>• Usable technology components identified in old buildings and removed for sale or re-use.<br>• District has efficient and effective building performance technology support. |

**lag indicators**

All students and staff have a 1:1 device. Yes as of FY 20-21 Every Student K-12 has an iPad, Every Teacher has a Laptop and iPad, and every Paraprofessional has an iPad.
Door access and classroom AV system and cameras installed per specifications. Partially LES 95% complete RRHS 85% complete, NSE TBD
We have identified usable technology components for sale or re-use. ROOS / VHS complete, EG Campuses complete, James Madison complete
We have removed usable technology components from older buildings. ROOS / VHS complete, EG Campuses complete, James Madison complete

**lead Indicators**

All students and staff are proficient with their 1:1 device.
Teachers are collaborating on instructional topics. RRHS teachers are beginning to collaborate in some departments, Staff will utilize flex time to collaborate as well as Academy staff development will increase collaboration.
Students are lead instruction. I am aware of one student that is leading instruction.
Usable technology components from older buildings are being removed. Complete from ROOS / VHS, EG Campuses complete, James Madison complete.
Door access, classroom AV systems, and cameras ordered and placements in buildings determined. LES, RRHS, NSE are complete, PE and Admin ongoing.
