

Technology Dept Report

June 19, 2017

Classroom Technology

- We have collected all the 9th grade laptops and have started to get them ready for the fall. Both the 9th and 10th grades will be assigned laptops next year. The 10th grade students will receive the same laptop they had last year.

Security/Video

- Cameras, track, and wiring are on order to improve video feeds at the heavily used entryways at Minico and the District Service Center.

Online Registration

- We have submitted new forms and are currently working with PowerSchool to update registration forms for this fall. We expect to go live the first or second week of August.

Summer School

- We moved two carts of laptops from Minico High School to West Minico to use for summer school. The rest of the devices being used are already at West Minico. We are all set for technology use at summer school. Powerschool has also been setup for the school to function.
