**Re: Harvey D152 10 Year Life Safety Status**  
**STR Project No. 14004**

---

Dear Dr. Nohelty:

In order to establish the Illinois State Board of Education 10-year Life Safety survey renewal date for Harvey School District 152 we've contacted the State for the most up-to-date status.

The most recent 10-year Life Safety surveys for Harvey D152 were issued as follows:

Approved in 2000 and currently beyond the ten year renewal window

Brooks Middle School – 02/16/2000  
Lowell – Long Fellow Elementary School – 02/16/2000  
Maya Angelou Elementary School – 02/16/2000  
Riley Pre-School – 02/16/2000  
Sandburg Elementary School – 02/16/2000  
Fields Elementary School – 01/02/2000

Approved in 2005 and up for renewal in 2015

Holmes Elementary School – 9/20/2005  
Bryant Elementary School – 01/02/2005  
Whittier Elementary School – 01/02/2005

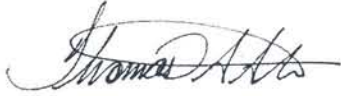

Based on the above ISBE findings the listed schools approved in 2000 are currently **"Not in Compliance"** with the state since a life safety survey has not been submitted and approved in over ten years. Life Safety Surveys for these schools must be submitted ASAP to be in good standing with the ISBE.

\*\*Please note we also discovered several Life Safety Surveys were complete in 2013. These surveys were not approved by the Harvey School District and were not submitted for approval in the IWAS system. As such they are not recorded by the ISBE. These schools are as follows:

Brooks Middle School – 01/28/2013  
Holmes Elementary School – 01/31/2013  
Lowell-Long Fellow Elementary School – 04/24/2013  
Maya Angelou Elementary School – 04/24/2013  
Riley Pre-School – 01/28/2013  
Sandburg Elementary School – 01/28/2013

Harvey D152 must submit a 10-year Life Safety Survey for Holmes, Bryant, and Whittier Elementary Schools by 2015 for these schools to remain in good standing with ISBE.

Sincerely,  
STR Partners LLC
