

~~3085—Quotations for Professional Services—~~

~~Professional services include but are not limited to services rendered by attorneys and accountants.~~

~~-~~

~~The process of interviewing and receiving quotations for these services shall be executed at least once every five years and shall involve the School Board acting in the capacity of a Committee of the Whole or amended as prescribed by the School Board.~~

~~-~~

~~Should the situation arise at the end of a five-year period that the services being rendered are at a point that it would not be in the best interest of the School District to change the firm currently providing these services, the Director of Business and Finance can request from the School Board a one-year extension of the contract with the current firm.~~
