Policy Name: *Financial Management*

Regulation: -----

Use of Federal Title I Funds Methodology

In accordance with the “Every Student Succeeds Act” (ESSA), Browning School District has adopted this procedure to ensure that Title I-A federal funds are supplementing District resources and not supplanting District resources. The procedure documents that the School District’s neutrally determined distribution of state and local funds to each school within the boundaries of the School District is in compliance with federal law.

Browning School District is a district with multiple schools per grade spans and adopts this methodology in accordance with ESSA. For the purposes of this methodology elementary means grades K-8 and secondary means grades 9-12.

The School District determines the resource allocation on total enrollment for each school as if the state and local funds are the only resources each school is receiving. Each school is given additional allocations for other needs such as technology, supplies, and additional necessary costs.

The School District groups schools by elementary or secondary grade span. Each grade span may receive a different per student amount, but all schools are treated the same whether or not these schools are served under Title I-A. ~~There are 1370 elementary students and 595 secondary students in the School District.~~

~~The School District’s state and local funds are allocated in a per student calculation. For full-time equivalency staff including administrators, educators, instructional staff, and school counselors, including salaries and benefits \$863 is allocated per elementary student and secondary student.~~

~~Additional necessary costs, such as professional development, technology, lunch, library supplies, transportation, student activities, utilities, maintenance, safety, and security, are allocated at \$226 per student in all schools.~~
