To: Mary Kim Titla

I am so sorry contacting you this way. We did contact the Board Members but they are well trained by the dr. wilde. They have to report all contacts to the dr. wilde. So I am contacting you. We the teacher aides are working hard but we don't get recognized. I did see you in the newspapers and you were fighting for more money for our school district. But who gets this money the school district or the superintendent. Before you fight for this money don't you think about cleaning up our district. We are sadly disappointed.

About three years ago the dr. wilde took our contracts away. We do not sign contracts. We don't get Christmas or Spring break pay. We only get 5 days leave. we used to get 10 days. What happened to our leave? This affects our retirement. We are punching in on a finger print system ( time clock ) that is used at the prison court system.

Can you help us on this matter if not we are going to the Court System and the United States Labor Department. Many, many years ago when the Apaches were held captive on the San Carlos Apache Reservation ( 1800's ). When we had a problem we were to see the supertendant. This is 2013, why, we do not see the supertendant.
