Transportation

Purpose

The Board of Education will provide transportation, under provisions of state law and regulation for all students who qualify for such service, either by contracting with a private carrier or by the use of district-owned transportation vehicles.

The superintendent/designee shall administer the operation so as to:

1. Provide for ~~the maximum~~ safety of students.
2. Provide for an efficient, cost-effective operation.
3. Assist handicapped students appropriately.
4. Enrich the instructional program.
5. Provide for the scheduling and supervision of transportation service for athletic trips, activity buses, special education transportation, and career education transportation.

Under extraordinary circumstances and with the superintendent's approval, parents may be reimbursed for transportation of eligible students whenever such practice is more economical.

Federal Compliance

Transportation will be provided for homeless students to and from the school of origin as required by the No Child Left Behind Act. These services shall be provided throughout the regularly scheduled school year and day as determined by the Board.

Transportation will be provided for an eligible student who attends a district school out of the student's attendance area because the home school has been identified as in need of improvement, the student is a victim of a violent criminal offense occurring in or on the grounds of the school the student attends, or the student attends a school identified as persistently dangerous.

Transportation may be provided to eligible students who transfer from a district school to an out-of-district school under a cooperative agreement because their home school has been identified as in need of improvement under the No Child Left Behind Act.

Definitions

1. “School transportation” means the procedure, program, or fully effective and implemented plan by which students are conveyed to and/or from school from their residence or pick-up areas at public expense, whether by use of publicly owned equipment or by contract. Such transportation shall be over public roads approved by the municipality or private roads approved pursuant to Connecticut General Statutes Section 10-220c.
2. “Walking distance” means the linear measure of a prescribed or authorized pedestrian route between the student’s residence or pick-up area and school from a point at the curb or edge of a public or private road nearest the pupil’s residence to the closest edge of the school grounds reflected in the architectural site plans which include the walkways adjacent to the driveways and access walkways from the public streets.
3. “One mile walking distance” means a reasonable measurement of a route to be traversed extending from the point of measurement at least 5,280 feet, but not more than 5,380 feet.
4. “One half mile walking distance” means a reasonable measurement of a route to be traversed extending from the point of measurement at least 2,640 feet, but not more than 2,740 feet.
5. “One quarter mile walking distance” means a reasonable measurement of a route to be traversed extending from the point of measurement at least 1,320 feet, but not more than 1,420 feet.
6. “Grade K” means kindergarten, or a school program appropriate to a beginning student.
7. “Hazard” means a thing or condition that affects the safety of students walking to and from school and/or designated bus pick-up area. Conditions or circumstances related only to a specific student’s needs would not constitute a hazard. For example, if a parent has always walked a student to a bus stop but can no longer do so, that circumstance does not create a hazardous condition.
8. “Sidewalk” means a portion of the landscape right of way approximately three feet wide, usually parallel to the traffic lanes which may be paved or unpaved, and marked by curbing, drainage ditch, grass area or fencing; apart from and independent of any white line safety markings along the street pavement.

Regular Routes and Services - Transportation

Transportation will be provided only to Granby Public Schools and other educational facilities where the student has been placed by proper authorities. It is the responsibility of the Superintendent, or his/her designee, prior to the start of each school year, to establish bus routes throughout the community to provide for the transportation of children to and from school safely, efficiently, and economically. The following guidelines are to be considered in the establishment of bus stops:

1. Elementary Walking Distance – All students from grades K through 5 living less than one-quarter mile (by the shortest route) from a school will not be entitled to transportation service if safe sidewalks are available for the walk to school. A one-quarter mile walking distance from a child's home to a pick-up area shall be considered reasonable.

2. Secondary Walking Distance – All students from grades 6 through 12 living less than one-half mile (by the shortest route) from a school will not be entitled to transportation service if safe sidewalks are available for the walk to school. A one-half mile walking distance from a child's home to a pick-up area shall be considered reasonable.

3. Pick-up Areas – The determination of specific pick-up and drop-off areas shall be an administrative decision subject to review by the Board of Education or an appointed sub-committee upon written appeal by a citizen or a group of citizens. Written appeals for change in a bus pick-up area for reasons of student safety shall be reviewed by the police department prior to consideration by the Board of Education.

~~4. Drop-Off Areas – When a student is dropped off, it is the parent's responsibility to ensure the child's safety.~~

~~4. Parents and/or guardians are responsible for ensuring the safety of their children up until the point when students board the school bus, or other school-provided transportation, and after students get off the bus after school.~~

~~5. The ability of a parent or guardian to view the bus stop from their property is not a constraint to be considered when establishing bus stop locations.~~

~~5-6.~~ Exceptions to the provision of the above sections may be made by the superintendent/designee when such changes are in the best interest of safety or health of the children made for the reasons listed in policy 3541.12.

1. Cul-de-sacs and *Do Not Use/Enter Streets*

Consistent with State of Connecticut Regulation Section 14-275C-18, entitled “Operation of School Buses”, backing of the school bus shall be avoided, whenever possible. If there are children outside the bus, no backing maneuvers shall be made unless a competent adult observer is on hand to direct the maneuver from a point behind the driver’s side of the bus and clearly visible in the driver’s mirror.

When a school bus enters a cul-de-sac, children will be picked up (before the turn is made) on the boarding side of the bus, on the way into the cul-de-sac, and dropped off (after the bus has maneuvered the turn) on the opposite side of the street.

Certain streets within the town may be designated *Do Not Use/Enter Streets* because factors including lack of necessary space to turn around, topography, street width, and industrial activity make access unsafe. These streets will not be entered, even for mid-day kindergarten.
