---

Attached are the recommended textbook and resource changes for the 2018-2019 school year. You will find two documents of proposed resources.

The first document represents the resources that were originally presented to the Board on April, 23, 2018. These resources appropriately support the current curriculum and are replacing older editions or reflect first-time purchases for courses that have been approved or updated. They have been available for display at the Coultrap Educational Services Center for the requisite amount of time per the Illinois School Code, and we are seeking your formal approval of these adoptions this evening.

The second document includes the titles from our three, recently approved versions of English IV. These novels reflect first time purchases and will be on for display at the Coultrap Educational Services Center for the requisite amount of time per the Illinois School Code.
