

Technology Dept Report

November 20, 2017

Classroom Technology

- We completed reimaging two of the old carts from East. (60 laptops)
- Airplay has become a problem in several rooms. We are working diligently to get answers as to why. Mostly it seems that version conflicts with devices and Apple TVs are the problem.
- We have replaced 40 outdated wireless access points and added 10 new ones. This helps with the high number of devices we have in the classrooms.

Security/Video

- Wiring for the new locks at the District Service Center have been pulled. We are hoping to get the equipment installed before December.

HVAC

- Carrier has put in new HVAC management equipment at Minico and Rupert. We weren't able to finish Rupert's because of a problem networking the equipment together. After working with PMT's support, we were able to get the connection from Minco to Rupert working. Carrier has rescheduled to finish the installation at Rupert the second week of November.

Work Orders

August	September	October
203 New	137 New	104 New
138 Resolved	91 Resolved	121 Resolved
117 Incomplete	163 Incomplete	146 Incomplete
