

Site Report – Chignik Lake – February 2023

To: Superintendent Kasie Luke
and LPSD School Board Members

From: Barbra Donachy/Head Teacher,
Chignik Lake

Every student, from preschool through high school, receives an excellent and equitable education that empowers them to reach their full potential, **Every day.**

Chignik Lake School Vision

Outstanding Activities and Events

Personnel

Chignik Lake School still has all positions filled but one, SPED aide position (35 hours). This month, we have been able to cover all of our student needs in spite of absences due to illness and scheduled training thanks to staff flexibility, our accommodating student teacher, and commitment to our students.

Standards Based System/Curriculum Progress

All students are making progress in our standards-based system.

Technology Progress

We continue share the remaining two Apple TVs to display content to our students. We've had issues with some iPads. The tech department is aware and is working with us to get the devices up and running again.

Facility Update

Our facility is in good shape. Our additional temporary maintenance person is working diligently to ensure our facility stays in good shape and keep atop rising issues. Our custodial staff is keeping everything clean and sanitized.

LSAC Activity

The LSAC met on February 15th. Approved minutes will be sent separately. The next meeting is set for March 8, 2023.

Volunteer Report

Community volunteers are still pitching in when needed. The usual monthly hours have been donated to the school to run items from the airfield and to and from our village office as well as shelving library books.

Professional Development

Weather or not, Barbra was able to attend the ASTE conference virtually in order to bring more technology ideas and integration into the Lake classrooms. She is also working on nine college credits this semester! Jacob and Melody are also completing professional development to help add to their teaching toolbox.

Pupil Attendance

We ended the month with a boost in enrollment. We now have 21 students attending school at the Lake. We are doing our best to maintain sanitizing protocols. Still, we've had quite a few students out with illnesses.
--

Student and Staff Safety

Students are regularly supervised to ensure all are interacting in a safe manner.

Subsistence Calendar

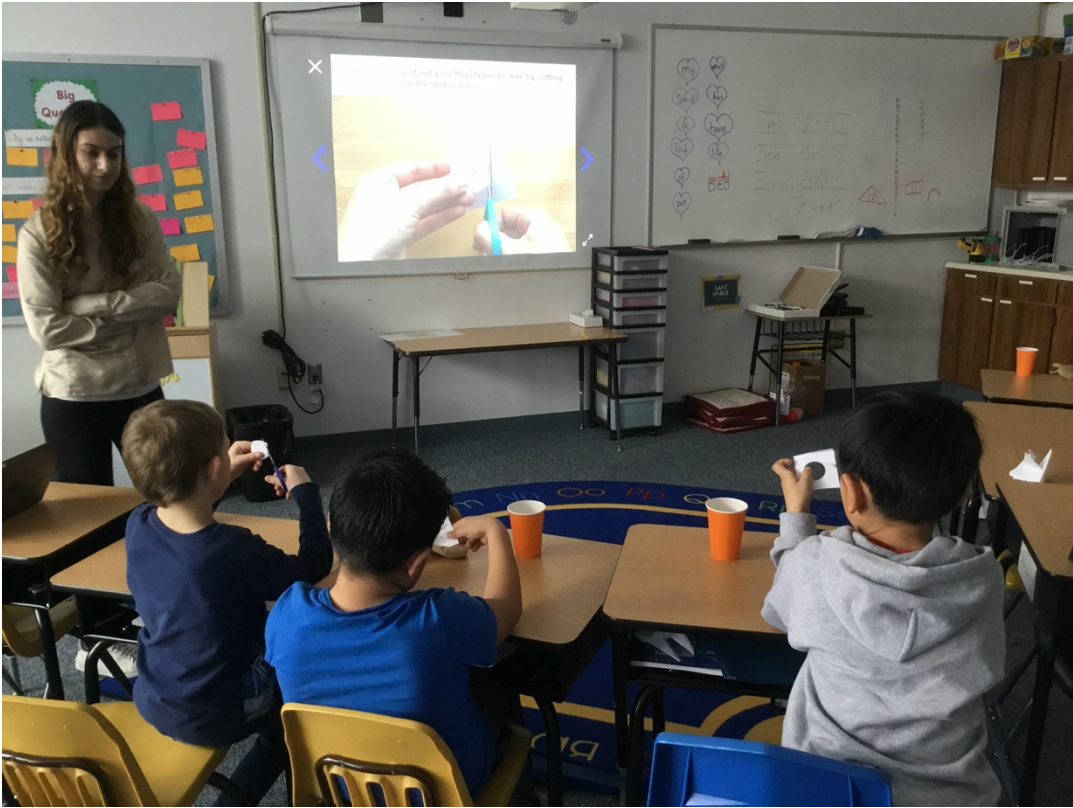

Students and staff are diligently working to maximize efforts to work within our allotted calendar days.
