

Minidoka County School District

Transportation's Report

June 2019 Board Report

The summer has gone really well for summer school with fewer phone calls than we have had in the past. Our mechanics have done very well this summer getting buses ready to go for the coming year.

Our driver situation this year has taken a turn for the worse, but we will survive. Since the end of school we have had one more driver retire, another driver quit and still have one driver on long term medical that will be gone until at least the end of September. We have two more drivers that at this point in time will be out on medical to start the school year. One driver will be out with back surgery and another out with knee replacement. We have five open routes and three routes that at this point in time we are planning on covering to start the school year due to medical issues. With the sub drivers we have to start school we will have at least one office person and three mechanics driving school bus the first day of school. At this time, we are not looking to have many route changes due to a lack of personnel.

We hope your all having a great summer we will keep you notified of any changes we might have.

Thank you

Ryan Edwards

Transportation supervisor
