

DISCUSSION OF ECISD BOARD GOALS AND MEASURES OF SUCCESS

The District began work on a Strategic Plan in March 2019 to guide the work of the District for the next five years. These yearly measures of the indicators of success will be instrumental in ensuring our school district meets the five-year Strategic Plan Board Goals so that students are prepared for post-secondary opportunities as they graduate from our high schools. We will be looking at the proposed updates to Board Goals 2 and 3, as well as looking at the yearly breakdown of each indicator to reflect progress toward the end goal in 2024.
