

HISD Transportation

This past month has been very busy for Transportation. We completed the Operations Report for TEA this month and it has been submitted and approved. We have also been busy not only carrying students from home to school but also on multiple field trips. We have been utilizing the new trip buses for our Varsity Sports. This is the first year in a long time that we have participated in the Hallsville Christmas Parade. Naomi and Johnnie from our office staff dressed up and decorated the new golf cart. I drove the golf cart in the parade and the girls were a big hit with people wanting pics with them as they walked alongside the golf cart greeting everyone. We have been asked for several years if we could have a Christmas Party like most of the other campuses. This year we made it happen. We were able to have a party at Wylde Acres. We had several donations from people like Bubba's 33, Miss Minnie's Cafe, several drivers and monitors and several campuses as well. The girls in the office put all of this together and it turned out great. We have been trying to do some things to help boost morale and let the community know that even though this is a very serious job it is a fun family environment as well. As we are nearing the end of 2024 we are thankful for a great year and look forward to a great 2025 as well. Thanks for your time and support.

Thanks,
Roy
