MIDWAY INDEPENDENT SCHOOL DISTRICT

Midway Academic Progress BOY 2025-2026

ASSESSMENTS

NWEA MAP

NWEA MAP (Measures of Academic Progress) Growth is a dynamic adaptive assessment that measures students' achievement and growth in K–12 math, reading, language usage, and science. Midway uses this tool primarily for Reading.

The assessment provides teachers with accurate, actionable evidence to help inform instructional strategies regardless of how far students are above or below grade level. MAP Growth is a national normed.

TANGO LION

The Learning Inventory of Need (LION) in English and Spanish (LEON) is a comprehensive, adaptive math assessment for students grades KG – 5 (Spanish K-5).

LION is a web-based assessment giving students tasks based on grade-level readiness skills and their corresponding pre-skills. Teachers learn valuable information regarding students' proficiency in math concepts and their progress throughout the year.

IXL Learning is a personalized online platform offering K-12 screening and practice in math, language arts, science, and social studies. We started using IXL as our comprehensive, adaptive math and reading assessment for students grades 6 – Alg 1 (Math) and 6-10 (RLA).

In addition to being a web-based adaptive assessment, IXL also provides students with targeted practice and skill recommendations to fill knowledge gaps and helps teachers monitor progress and make informed instructional decisions with formative data.
