

## Discussion Item

**Date:** August 4, 2025

**Division:**

**Subject:** Hazardous route update

**Background Information:**

- Each year, LISD administration brings forth hazardous routes to provide the safest routes possible for families and students as they travel to school on our transportation.
- As discussed before in a prior board meeting, there might be other routes or areas uncovered that need to be added to the original list.

**Administrative Consideration:**

- LISD administration and the Transportation Department located an additional route to Memorial Elementary, Griffin Middle and The Colony High School near Windhaven PKWY and Josey Lane. We recommend this get added to the original list of routes.
