FISCAL MANAGEMENT BUDGET GOALS AND OBJECTIVES

JUNE 20, 1988

The budget of the school district should shall:

- 1. Indicate to the people of the school district what it costs in dollars and cents to offer a particular type of educational program. Provide information on the educational activities for which public funds are being expended and the costs thereof.
- 2. Ensure the continuance of this educational program for the budgeted period of time.
- 3. Provide information on the educational activities for which public funds are being expended and is Be regarded as an important public relations instrument as it communicates the prioritization of resources.
- 4. Serve as a means of financial control.
- 5. Provide the Board of Education and administration with the authority to make expenditures within a pattern established by a predetermined educational program the approved budget to support the educational programs.
- 6. Serve as a basis for determining the amount of revenue which must be obtained from local taxation.
- 7. Serve as an instrument that will facilitate accurate estimates of future expenditures.
- 8. Serve as an instrument by which the Board may study the expenditures of the District by budget categories, thus enabling them to better evaluate individual projects.
