

TECHNOLOGY PLAN: VISION AND MISSION STATEMENTS

The vision and mission statements should reflect 21st Century technology. They should reveal how technology will increase academic achievement as well as students and teachers technology literacy skills.

VISION STATEMENT

The vision of the Mammoth-San Manuel Unified School District for K-12 students and staff is that they will use education technology appropriately to develop strategies for solving problems, enhance their access to information, collect data, analyze data, increase productivity, produce creative work, communicate ideas, improve learning with more authentic learning opportunities, communicate and collaborate on a global level with the means of distance learning, and enhance their work force skills. Additionally, ongoing professional development will allow staff to assess student progress through the use of education technology; and to support the use of student information systems.

MISSION STATEMENT

The Mammoth-San Manuel Unified School District's Technology mission is to enhance the academic achievement of every student through the development and implementation of technology in authentic learning environments to produce college and career ready adults.

Technology plans will be submitted online through a web based application in the Common Logon, <https://www.ade.az.gov/CommonLogon/logon.aspx>, "ALEAT" (Arizona Local Education Agency Tracker.) The Arizona Department of Education (ADE) will review the technology plan for accuracy and compliance. **Detailed records of all submissions (and accompanying documents) must be retained by the school district or charter school and made available for review or audit upon request.**
