This should make the tax payers happy. With the \$1 plus mil dollar bond equalization revenue, our levy rate for the school district will drop from .00321948 to appx .002378117. Per \$100,000 of property value the amount of the levy would decrease from 199.00 last years school district levies to \$143.00. That is a \$56.00 per \$100,000 savings on school levies alone.
