Summary: **Continue to use Alexander Oil Company and Fuelman / Corpay fueling network.**

Background Information: **Navarro ISD currently utilizes a fuel card system through Alexander Oil. Locally this system is specific to one gas station in the Seguin area, the**

Shell station formerly known as Jud's.

Alexander Oil has continued to hold the pricing below for the Navarro Fleet fuel services:

- **Fuel cards for use at Alexander Oil Cardlock Facilities (Cardlock local facility: Homerun/Shell - Seguin)**
- **Fuel- only Bankcard for regional limited use priced at a minimum of \$.02 below retail pricing**
- **Diesel Exhaust Fluid (DEF) is delivered and stored in a small tank at our facility.**

The contract will represent a fixed and firm differential which may not vary over the term of the contract.

The contract will be for the 2025-2026 school year beginning August 1, 2025 and ending July 31,2026.

Alexander Oil will provide fuel only cards customized for the district. This process will eliminate wild price swings, provide fair documented pricing, offer accountability and comprehensive reporting. The program eliminates possible fuel theft and non-fuel charges such as sodas and snacks.

Note- under House Bill 987 Section 44.031, vehicle fuel purchases are exempt from competitive procurement regardless of the amount.

Fuelman/Corpay provides options in the event the gas pumps go down. This caused logistical issues when it occurred in the past as the only other cards available were the campus/department issued Citicards.

Alexander Oil has provided cards for regional use outside of the area but staff have found these cards often do not work. As we have continued to have field trips/athletic events taking place outside of the Seguin/New Braunfels area, we have needed more options for fueling. Over the past year we began using Fuelman/Corpay.

Using Fuelman preferred network stations worked well for our various out of town trips. These cards provide savings in comparison to using Citibank cards. Their pricing projects cost savings of approximately 3% of the cost of the tax exempt retail price of fuel.

Besides the 60K+ fueling stations that accept the Fuelman card they also have an online portal which allows for improved monitoring of our fueling habits.
