# School Subscription Enrollment Amendment ID CTM

000-mchacon-E-7011

1. The parties agree to delete the first paragraph in section 4, Student full time equivalent (FTE) option, and replace it with the following new section 4:

The student FTE option *is intended for schools that deploy a separate PC to each student for his/her exclusive use (PCs deployed to students on a one to one basis). Microsoft offers distributors student option prices (for some desktop software products) that are lower than the eligible PC prices as a special incentive for schools to provide each student with a PC that he/she does not share with other students. As an exception to our student option license program Microsoft will offer your distributor the student prices for all software (if available for a student price) on all PCs that are generally available for student use even if the students share the PCs with other students. If you renew your School Subscription Enrollment no later than August 31, 2009 Microsoft will provide this exception for student option prices on your renewal enrollment starting September 1, 2009 until August 31, 2012.* In order to qualify for the student option, you must first enroll the school(s) under which the students are registered.
