# Sale Day Report – August 15, 2016

Independent School District No. 763 (Medford), Minnesota  
\$1,040,000 General Obligation Facilities Maintenance Bonds, Series 2016A

**Purpose:** To provide funds for facility maintenance projects, consistent with the District's state-approved ten-year facilities plan.

**Rating:** Credit Enhanced Rating: Standard & Poor's Credit Markets "AA+"  
Underlying Rating: Standard & Poor's Credit Markets "A+"

**Number of Bids:** 3

**Low Bidder:** United Bankers' Bank, Bloomington, Minnesota

Comparison from Lowest to Highest Bid: (TIC as bid)	Low Bid	High Bid	Interest Difference
	1.7214% *	1.8017%	\$6,706

Summary of Results:	Results of Sale
Principal Amount*:	\$1,040,000
Underwriter's Discount:	\$10,730
Reoffering Premium:	\$10,616
True Interest Cost*:	1.7168%
Costs of Issuance:	\$28,004
Yield:	0.900% - 1.850%
Total Net P&I	\$1,183,272

*\*In the estimates used to prepare the Pre-Sale Report and Official Statement for the Bonds, Ehlers estimated that the underwriter would pay a premium price (a price greater than the par amount of the bonds) and that the net premium (reoffering premium minus underwriter's discount) would be used to finance project costs and issuance costs. However, the winning bidder actually submitted a bid with a discount price (a price less than the par amount). In order to have sufficient funds for project costs, the principal amount of the Bonds was increased from \$1,015,000 (in the Pre-Sale Report and the Preliminary Official Statement) to \$1,040,000, which also caused a slight change to the True Interest Cost.*

**Notes:** The True Interest Cost of 1.72% was less than the estimate of 2.00% included in the Pre-Sale Report in July. As a result, the total amount of Long Term Facilities Maintenance Funding used for debt service will be \$24,348 lower during the life of the bonds than estimated in the Pre-Sale Report.

**Closing Date:** September 7, 2016

**School Board Action:** Resolution authorizing issuance, awarding the sale, prescribing the form and details and providing for the payment of \$1,040,000 General Obligation Facilities Maintenance Bonds, Series 2016A.

**Attachments:**

- Bid Tabulation
- Sources and Uses of Funds
- Updated Debt Service Schedules
- Rating Report
- Bond Resolution (Distributed in School Board Packets)

Medford Indpt Sch Dist #763 State Enhancement Prog

Long Term Rating	AA+/Positive	Affirmed
------------------	--------------	----------

Underlying Rating for Credit Program	A+/Stable	Affirmed
--------------------------------------	-----------	----------

## Rationale

S&P Global Ratings assigned its 'AA+' long-term rating and 'A+' underlying rating to Medford Independent School District (ISD) No. 763, Minn.'s series 2016A general obligation (GO) facilities maintenance bonds. At the same time, we affirmed our 'A+' underlying rating on the district's previously rated bonds. The outlook on the underlying rating is stable.

The 'AA+' program rating reflects our assessment of the school district's eligibility for, and participation in, the Minnesota State Standing Appropriation for School Program, which provides the security of a standing appropriation from Minnesota's general fund in the event of a school district debt payment default. The outlook on the program rating is positive.

The bonds are GOs of the district for which its full faith, credit and taxing powers are pledged. We understand that officials will use the bond proceeds to fund facility maintenance projects in the ten-year facility plan of the district.

In our opinion, the rating reflects our view of the district's:

- Strong incomes and extremely strong market value per capita;
- Very strong reserves despite recent deficits; and
- Low-to-moderate debt burden.

Partially offsetting the above strengths is our view of the trend of deficits and lack of revenue-raising flexibility.

## Economy

Medford ISD No. 763 serves an estimated population of 3,180 approximately 60 miles south of the Minneapolis-St. Paul metropolitan area in Steele, Rice, and Waseca counties. In our opinion, median household effective buying income (EBI) is strong at 113% of the national level, but per capita EBI is good at 96%. At \$154,359 per capita, the 2016 economic market value totaling \$490.9 million is, in our opinion, extremely strong. Assessed value (AV) grew by a total of 6.4% overall from 2014 to \$4.1 million in 2016, but it decreased by 2.4% in 2016. The 10 largest taxpayers

make up an estimated 15.0% of AV, which we consider diverse.

The tax base is nearly 52% agricultural. The largest employers include property manager Medford Outlet Center (286 employees), Hormel Foods (250), and the district itself (102). Unemployment in Steele County was 3.3% in 2015.

## **Finances**

The state's basic general education revenue funding, which is determined by pupil count, is the primary source of operating revenue for Minnesota school districts. As a result, increases or decreases in enrollment can lead to increases or decreases, respectively, in revenue. In 2016, enrollment was 860 and rose each year from 2012 to 2016. Projections show slight growth to 875 through 2019.

The district's available fund balance of \$2.4 million is very strong, in our view, at 31.4% of general fund expenditures at fiscal year-end (June 30) 2015. It reported a deficit operating result at 1.0% of expenditures in 2015. The district depends primarily on state aid for general fund revenue (89.7%), with property taxes accounting for only 4.7%.

The district reports its financial statements using the accrual basis of accounting. The fund balance dropped from 45% of expenditures in fiscal 2012 after three consecutive years of deficits due to rising expenditures, but we still view the district's finances as very strong. Management attributes the small fiscal 2015 deficit to one-time capital expenditures. For fiscal 2016, the budget included a \$205,000 surplus but management estimates to report a larger, roughly \$400,000 surplus due to lower expenditures than budgeted. The fiscal 2017 budget includes another surplus of \$236,000 due to increased enrollment and state revenue.

Labor contracts are settled through fiscal 2017 with modest increases.

## **Management**

We consider the district's management practices "standard" under our financial management assessment methodology, indicating the finance department maintains adequate policies in some, but not all, key areas.

Highlights include strong revenue and expenditure assumptions with a predictable budget and the use of historical data. The board receives at least quarterly budget-to-actual reports and the finance committee receives monthly financial reports. The district lacks a long-term financial plan but maintains a long-range facilities plan that addresses district-wide capital needs. It lacks its own investment and debt management policies but adheres to state statutes. The district has a formal fund balance policy of 25% of expenditures in general fund reserves, with which it is in compliance.

## **Debt**

Overall net debt is low, in our opinion, as a percentage of market value at 2.8%, and moderate on a per capita basis at \$4,637. Amortization is fairly rapid, with 62% of the district's direct debt scheduled to be retired within 10 years. Debt service carrying charges were 11.6% of total governmental fund expenditures (excluding capital outlay) in fiscal 2015, which we consider moderate.

The district has no additional debt plans within the next two years.

### **Pension and other postemployment benefit liabilities**

In fiscal 2015, the district paid its full required contribution of \$306,000, or 3.3% of total governmental expenditures, toward its pension obligations. In the same fiscal year, it also paid \$46,000, or 0.5% of total governmental expenditures, toward its other postemployment benefit (OPEB) obligations. Combined pension and OPEB carrying charges totaled 3.8% of total governmental fund expenditures in 2015.

All teachers are covered by the state of Minnesota Teachers Retirement Association (TRA). Employees not covered by TRA are covered by the Public Employees' Retirement Association of Minnesota (PERA). PERA administers the General Employees Retirement Fund (GERF).

### **Outlook**

The positive outlook on the enhanced rating reflects that on the state of Minnesota and moves in tandem with the state GO rating and outlook. The stable outlook on the underlying rating reflects our expectation that management will maintain at least strong reserves and make the necessary budgetary adjustments in response to any declines in revenue. We do not anticipate changing the rating within the two-year outlook horizon.

### **Upside scenario**

We could raise the rating after modest improvement in economic characteristics, namely income indicators, coupled with sustainable operational balance and the maintenance of very strong reserves.

### **Downside scenario**

Although unlikely, we could lower the rating should the district continue to report operating deficits and report a decline in reserves to a level that we no longer consider strong.

Certain terms used in this report, particularly certain adjectives used to express our view on rating relevant factors, have specific meanings ascribed to them in our criteria, and should therefore be read in conjunction with such criteria.
