FOREWORD

The Governing Board of Amphitheater Public School District is responsible for establishing assessment and evaluation guidelines for the improvement of instruction in cooperation with the advice of its certificated staff. Elements to be included in the Teacher Performance Evaluation System are the following:

- 1. A reliable instrument, including specific criteria for measuring effective teaching performance in each area of the teacher's classroom performance.
- 2. An assessment of the competencies of teachers as related to the criteria.
- 3. Actual classroom observations which meet specified frequency and duration requirements.
- 4. Specific and reasonable plans for the improvement of teacher performance.
- 5. Student academic progress data deemed valid and reliable for the teacher being evaluated.
- 6. Appeal procedures for teachers disagreeing with the evaluation, if the evaluation is used as criteria in determining compensation.

Arizona law requires that public school districts have evaluation systems for "certificated teachers" which meet certain criteria and include certain components. In that context, the law defines "certificated teachers" to include anyone who is issued a certificate for their public school position by the Arizona Department of Education, except psychologists and administrators who teach students less than 50% of the time. Thus librarians must be evaluated in accordance with this law because of their certification by the Arizona Department of Education. (Complete statutory guidelines for teacher evaluation systems may be found in ARS § 15-203, *et seq.* and ARS § 15-537, *et seq.*) This manual, as well as Governing Board Policy *GCO* and its corresponding administrative regulations, describes Amphitheater District's philosophy and policies related to certificated teacher evaluation. Where any provision or expression of District philosophy, policies, regulations or the content of manual may exist, and state statues and other laws shall always control, in accordance with law.

The Associate to the Superintendent or a designee is responsible for monitoring implementation of this system in accordance with law. In addition, the Associate to the Superintendent or designee shall submit an annual report to the State Department of Education providing information required under ARS 15-537 relative to the District's Teacher Performance Evaluation System.

ATPES DEVELOPMENT

The Amphitheater Teacher Performance Evaluation System is developed through a collaborative process involving district teachers and administrators. A committee consisting of teachers and evaluators, representing various grade levels, and district administrators regularly reviews and, as appropriate, recommends revision of the evaluation system based upon input from evaluators and teachers.

In 2010, the Arizona Legislature required that the Arizona State Board of Education (SBOE) adopt a framework for a teacher evaluation instrument that includes quantitative data on student academic progress that accounts for between thirty-three percent (33%) and fifty percent (50%) of the evaluation outcomes for teachers in Arizona. *See,* Senate Bill 1040, 49th Legislature, 2d Reg. Session. SB 1040 also required that school districts begin using a teacher evaluation instrument that meets the data requirements established by the SBOE beginning in school year 2012-2013. See also ARS 15-203. Since 2010, there have been additional and substantial changes made in the way that teachers are evaluated. Most recently, the Fifty-First Legislature, First Regular Session, 2013, passed House Bill 2500 (Laws 2013, Chapter 149). This newest law builds on changes also made in the 2012 legislative session (HB2823; Laws 2012, Chapter 259) and clarifies many of that earlier bill's provisions. Sections of the Arizona Revised Statutes which were affected include 15-501, 15-536, 15-537, 15-538, 15-538.01, 15-539, and 15-550.

The recent uncertainty with respect to a new statewide measure of student achievement (such as the former AIMS) led to yet more legislative changes in the most recent legislative session. (See, Senate Bill 1289, Chap. 76, 52nd Legislature, 1st Regular Session). In short, these most recent changes allow school districts greater flexibility with respect to teacher evaluation outcomes given the uncertainty of the statewide measure.

Since the 2010-2011 school year, a committee has regularly met to review the Amphitheater Teacher Performance Evaluation System (ATPES) and recommend appropriate revisions to comply with the requirements of all of the legislative directives and the SBOE framework, as those requirements evolved. The committee's work will continue as changes to, and implementation of, the changing laws progress. This ATPES manual and the evaluation instrument it contains represent the culmination of the committee's work to date. The procedures and contained in this manual, as well as the evaluation instrument itself, have been approved by the Amphitheater Governing Board. Throughout the development of the ATPES, several concepts were considered:

- Arizona State Law, including the requirements of ARS 15-203 as described above, must be met.
- Arizona Professional Teaching Standards and research on best practices
- Teaching content should align with the Arizona College and Career Ready Standards and other curriculum requirements (e.g., International Baccalaureate[®], Advanced Placement[®]), as applicable.
- Evaluation systems should target those areas most critical to both learning and success of students within the learning environment
- No single way of learning or teaching should be prescribed for all teachers.
- The evaluation process should reinforce sound instructional practices, identify areas for improvement, stimulate professional growth, encourage teacher self-reflection, and provide for collaboration between the teacher and the evaluator.
- An evaluation system should identify and address instructional and professional practices that do not meet district standards.
- Quantitative measures of student academic progress used to evaluate teacher performance must be valid and reliable.
- An evaluation system should be understandable and efficient

Amphitheater Teacher Performance Evaluation Domains

The five domains of the ATPES instrument reflect these key concepts and provide the structure for the evaluation of teachers. A description of each of these five domains is provided below.

Domain 1: Designing and Planning Instruction

Effective teachers develop instructional plans which are aligned with Arizona College and Career Ready Standards. They plan lessons which take student characteristics and needs into account in order to ensure success. They reflect on the plans relative to student progress and make adjustments accordingly.

1.1 Established appropriate goals and objectives aligned to State Standards

- Long-term planning in place
- Reflected in curriculum maps
- 1.2 Makes instructional planning decisions based on qualitative and quantitative assessment data
- 1.3 Activities and lessons are:
 - Aligned with standards
 - Related to the identified objective
 - Sequenced from basic to complex
 - Built on prior student knowledge, promote higher order thinking and are relevant
- 1.4 Adapts instructional opportunities for diverse learners
 - Includes a variety of materials, methods and resources
 - Includes learning experiences for students which address a variety of cognitive levels
 - Plans accommodations or modifications for individual student success
- 1.5 Teacher is prepared:
 - Daily planning evident
 - Materials prepared and accessible

1.6 Engages in on-going reflection to promote student achievement

Domain 2: Assessing and Analyzing Student Learning

Effective teachers continually assess student learning using a variety of assessment methods. Clear criteria are utilized to provide feedback to the learner. Student assessment data is analyzed regularly to monitor and adjust instructional practices. Quantitative measures of individual student academic progress, in part, are used to determine teacher effectiveness.

2.1 Uses a variety of formative and summative assessments to drive instruction

- 2.2 Assessments are aligned with state standards and instruction
- 2.3 Assessments have clear, measurable criteria

2.4 Feedback from students is regularly used to monitor and adjust instruction

2.5 Continuously enrolled students assigned to this teacher demonstrate academic progress as measured by valid and reliable quantitative assessment data over time

Domain 3: Creating and Sustaining the Learning Environment

Effective teachers create a productive, safe, and mutually respectful learning environment. Such a climate supports the development of student abilities toward accomplishment of academic goals.

3.1 Creates an environment based on respect and effective relationships with students

- 3.2 Establishes and maintains classroom procedures and rules
- 3.3 Responses to student behavior are appropriate and consistent

3.4 Encourages the student to demonstrate self-discipline and responsibility to self and others

3.5 Creates a classroom culture in which students explain their thinking, initiate inquiry, and ask questions.

3.6 Safe and adequate organization of physical space provides equitable access to learning and the use of resources, materials and technology

3.7 Strategies are in place for effective transitions

Domain 4: Implementing and Adjusting Instruction

Effective teachers implement research based teaching methods, attend to academic learning time and student engagement, make instructional adjustments based on student interaction with the lesson and utilize a variety of communication techniques and methods to ensure student success. Critical thinking and problem solving are encouraged by teacher questions and student tasks. Technology is utilized by the teacher and the learner as a tool to increase student engagement and productivity.

- 4.1 Demonstrates knowledge of the subject matter
- 4.2 Clearly communicates objectives and state standards to students
- 4.3 Provides clear written and/or oral communication to students
- 4.4 Instructional pace maximizes time for student work, student reflection, and lesson and unit closure
- 4.5 Uses research-based instructional strategies and grouping techniques
- 4.6 Engages students in tasks which require critical thinking, creative thinking and problem solving
- 4.7 Uses effective questioning and discussion techniques
- 4.8 Provides on-going feedback to students during instruction
- 4.9 Uses a variety of instructional resources, including technology
- 4.10 Demonstrates flexibility and responsiveness based on student needs
- 4.11 Models the skills, concepts, attributes, or thinking processes to be learned

Domain 5: Professional Responsibilities

Effective teachers support the vision, mission and beliefs of the district and work collaboratively with colleagues in the school environment to ensure the best academic setting for every child. Therefore, quantitative measures of school-wide student academic progress, in part, are used to determine teacher effectiveness.

Effective teachers also adhere to district and school policies, procedures and timelines. Professional development is on-going. Communication with parents regarding the progress of students is consistent and regular.

Ultimately, the evaluation of any teacher should lead to valid conclusions which may be used for the improvement of instruction. Upon identification of deficiencies in classroom performance and specific recommendations for improvement, strategies for achieving improvement will be cooperatively developed by the teacher and evaluator.

5.1 Supports school and district vision, mission, beliefs and policies while abiding by the ethics of the profession

5.2 Collaborates, plans, supports and interacts with colleagues in a professional manner

5.3 Reviews and evaluates overall performance and responds to employer feedback in order to plan for and engage in high-quality professional development

5.4 Performs non-instructional duties

- Takes attendance regularly as required by Arizona State Law and district policy
- Maintains accurate, confidential and timely student records
- Participates in required meetings
- Is punctual
- Maintains a professional day
- Completes assigned tasks by established deadlines

5.5 Communicates student achievement and progress to students, their parents, and others as appropriate

5.6 Continuously enrolled students at the school demonstrate academic progress measured by valid and reliable quantitative assessment data over time

5.7 Other measures of school effectiveness

ATPES Inclusion of Student Academic Progress Data: 2017/2018 Implementation

Student academic progress data is not available in all content areas. As a result, the Arizona State School Board and the Amphitheater School District define two groups of teachers. Group A teachers have valid and reliable student progress data for their student population and content area for a total of three years; Group B teachers do not. As a result, only Group A teachers are evaluated directly on the progress of students in their classroom. Both groups are evaluated on the progress of all students in their school.

For 2017-2018, weights are unchanged from last year for student progress data for Group A and Group B as recommended by the ATPES Design Team. These are:

Group A teachers43% of evaluation total based on student progress data	:
Indicators of Quality Teaching (Classroom Observations)	57%
Classroom-level student progress	20%
School-level student progress	10%
School-level additional measures of effectiveness	13%
Group B teachers33% of evaluation total based on student progress data	

Group B teachers33% of evaluation total based on student progress data:			
Indicators of Quality Teaching (Classroom Observations)	67%		
School-level student progress	20%		
School-level additional measure of effectiveness	13%		

The measures, as appropriate for the grade levels, are:

School-level student progress (academic growth; 10% for Group A, 20% for Group B teachers) AIMS - The 2013-14 school year will be the most recent AIMS used AzMERIT – 2014-15, 2015-16 and 2016-2017 NWEA MAP DIBELS

School-level additional measures of effectiveness (13% for both Group A and Group B)

2016-2017 ADE A-F school accountability label (6.5%; that is, half of the weight of the additional measures) 2016-2017 ADE A-F district accountability label Advanced Placement testing and passing rates (high school only) Parent satisfaction survey results College/career readiness (high school only)

Parent Survey Data: Percentages of parent responses of "Agree and Strongly Agree" to questions which address student progress and/or school effectiveness.

Career and/or College Readiness Indicators: "College/career readiness" for this purpose is defined as the number of seniors who meet one of the following sets of criteria:

"College-ready seniors":

Pass the AzMERIT or other state assessment <u>AND</u> Have an unweighted GPA of at least 3.0 <u>AND</u> fulfill one of the following:

a. Have taken at least one advanced course (e.g., courses that receive weighted grades) and earned at least a grade of C

<u>OR</u>

b. Have scored at benchmark for college readiness in math or English/critical reading on the ACT or SAT college entrance exam

"Career-ready seniors":

Pass the AzMERIT or other state assessment AND Have at least two units in one area of career/technical education (CTE); have concentrator status

School Summary Report Information and Sample

Each school principal receives a School Summary Report at the beginning of the school year. This shows <u>two</u> weighted averages for school-level academic measures—the <u>Academic Growth Weighted Average</u> and the <u>Other</u> <u>Indicators Average</u>. These replace the School Overall Weighted Average (OWA). The Academic Growth Weighted Average is a measure of the academic growth of all students. The Other Indicators Average includes AZ-Learns labels for the school and the district, and parent survey results. High schools include additional measures of school effectiveness in the Other Indicators Average, including AP passing rate and College and Career Readiness indicators. Reports are based on three years of data unless the school is in improvement status, when only the most recent year may be used.

The Academic Growth weighted average is reported in the ATPES evaluation instrument in Indicator 5.6, and the Other Indicators average is reported in Indicator 5.7.

The Classroom Gain History Report will be generated for every teacher in Group A. The Weighted Average for the appropriate content area--Math, Reading, or Overall (both math and reading)—is used to show student progress for Indicator 2.5 on the evaluation instrument. All Classroom Gain History Reports show three years of growth on AIMS and/or NWEA depending on the grade taught.

Explanation of Terms Used in the School Summary Report and the Classroom Gain History Report

School Overall Weighted Average: This number in the upper right-hand corner of the School Summary Report summarizes school-wide student progress data that principals will use on Indicator 5.6 of the evaluation instrument for both Group A and Group B teachers. Student gains for each assessment, grade, and subject (math or reading) are evaluated using a 1-4 rubric. The rubric scores are weighted by the number of students in that group and averaged. The School Overall Weighted Average is also used by the Associate Superintendent for principal evaluation.

Classroom Weighted Average: The Classroom Gain History Report for Group A teachers typically shows three weighted averages—for Math, Reading and Overall -- for classroom-level student progress. If the teacher teaches only math or only reading, the rating for that subject is used for Indicator 2.5 on the evaluation instrument. If the teacher teaches both subjects the Overall Weighted Average is used for Indicator 2.5. Student gains for each assessment, grade, and subject (math or reading) are evaluated using a 1-4 rubric. The rubric scores are weighted by the number of students in that group and averaged.

Grade: The grade level group the teacher taught each year.

Cnt: The number of students with a pre and post test in that assessment for that grade and year.

Observed Growth: The actual average student growth from pretest to posttest.

Observed to Expected Growth Ratio: The actual average student growth for this group of students divided by the expected growth for a similar group of students. For example, a ratio of 1.0 means the group grew in one year exactly as much as similar Amphi students grew in the past. A ratio of 0.5 means they only made half as much progress, and a ratio of 1.5 means they made progress equivalent to 1.5 years.

Ratio with 86% CI: A confidence level (CI) is a statistical adjustment. This adjustment sets up a range that most likely contains the true score. In other words, it allows for a fairer estimate of the group's true average and adjusts for potential measurement errors. In this case, the upper "borderline" scores adjust to the higher rubric range.

1-4 Student Progress Rubric: The Observed to Expected Growth Ratio with 86% CI is compared to four levels of student gains:

- 4 Students made 1.5 years' progress or more
- 3 Students made from 1 to 1.5 years' progress
- 2 Students made from 0.5 to 1 year's progress
- 1 Students made less than 0.5 year's progress

Measures such as AZ-Learns labels that do not show gains set a rubric score of 3 as "expected" performance. Higher performance rates a 4, and lower performance rates a 2 or a 1.

Weighted Average: The rubric score for each measure is weighted by the number of students in that group when it is averaged.

TEACHER DESIGNATION LABELS AS REQUIRED BY ARS 15-203 Calculation of Student Progress Data Component

ATPES was developed in compliance with Arizona State Law on teacher evaluation. State law defines two groups of teachers—Group A and Group B—and the weights of student progress data at the classroom and school levels allowable for each group.

Group A teachers teach content (math, reading) and have three years of student gains as measured by valid and reliable tests (e.g., NWEA MAP).

Group B teachers teach other content without standardized assessments, are new teachers with fewer than three years of data, or have too few students with gains to be evaluated on them.

2017/2018	
Group A Teachers	
Indicators of quality teaching (classroom observation)	57%
Classroom-level student progress	20%
School-level student progress	10%
	13%
(School AZ-Learns label 6.5%;

,	
Group B Teachers

	20%
	13%
(School AZ-Learns label 6.5%;

Arizona State Law requires teachers to be designated as Highly Effective, Effective, Developing, or Ineffective. On the ATPES evaluation form, the indicators of quality teaching from classroom observation and the calculation of classroom- and school-level student progress are weighted according to the proportions above to make a total score. Each teacher's label of effectiveness is assigned according to the total score:

Group A teachers	
Highly Effective	113
Effective	99
Developing	80
Ineffective	<80
Group B teachers Highly Effective Effective Developing Ineffective	110 94 76 <76

TEACHER DESIGNATION LABELS AS REQUIRED BY ARS 15-203

After studying the actual aggregated data from three years of teacher evaluations, the ATPES Design Team discussed the various aspects of teacher designation and how to approach setting criteria which would determine a label. The following criteria for teacher designation labels are established for the 2017/2018 school year as required by Arizona State Law:

Group "A" Teacher Designation Criteria	
Highly Effective: Final evaluation score greater than or equal to	113
Effective: Final evaluation score between	99 and 112
Developing: Final evaluation score between	80 and 98
Ineffective: Final evaluation score below	<80
Group "B" Teacher Designation Criteria	
Highly Effective: Final evaluation score greater than or equal to	110
Effective: Final evaluation score between	94 and 109
Developing: Final evaluation score between	76 and 93
Ineffective: Final evaluation score below	<76

Teacher Performance Classifications:

As prescribed in A.R.S. § 15-203, LEAs shall classify each teacher in one of the following four performance classifications:

- **Highly Effective:** A *highly effective* teacher consistently exceeds expectations. This teacher's instructional performance is exceptional and her/his students generally made exceptional levels of academic progress. The highly effective teacher demonstrates mastery of the state board of education adopted professional teaching standards, as determined by classroom observations required by ARS § 15-537.
- Effective: An *effective* teacher consistently meets expectations. This teacher's instructional performance is effective and her/his students generally made satisfactory levels of academic progress. The effective teacher demonstrates competency in the state board of education adopted professional teaching standards, as determined by classroom observations as required by ARS § 15-537.
- **Developing:** A *developing* teacher fails to consistently meet expectations and requires a change in performance. This teacher's instructional performance is mixed and her/his students generally made unsatisfactory levels of academic progress. WRITTEN LESSON PLAN REQUIREMENT

A detailed, written lesson plan for the purpose of demonstrating planning skills is required of all teachers for formal observations.

EVALUATION CONFERENCE GUIDELINES

The following guidelines will help direct evaluation conferences:

- 1. Bi-lateral communication is essential. The perspectives of both the evaluator and the teacher will be discussed during the evaluation conference.
- 2. Teacher self-reflection, either written or oral will be required.
- 3. Teaching which has occurred throughout the year will be discussed. Performance evaluation should be based on both formal and informal observations.
- 4. Quantitative student progress data from student assessments will be reviewed with the teacher.
- 5. The evaluation conference provides an opportunity for the evaluator to gather information which cannot be obtained or observed in the formal observation process. Teachers will be invited to share this information. The evaluator may revise ratings or narrative comments based on post conference information.
- 6. The evaluator has both a professional and legal responsibility for determining the final assessment of teaching performance.
- 7. The perspectives of the evaluator and the teacher should be reviewed at the completion of the evaluation conference.

EVALUATION OF COMPETENCE

The evaluation system contains both ratings of competence as well as narrative comments about the level of competence demonstrated by teachers.

RATING SCALE

Each indicator (Indicators 2.5 and 5.6 excepted) and domain will be rated according to the following rubric scale:

4 – A teacher at Level 4 exceeds the best practices of Level 3 through innovation, flexibility, and creativity for an indicator. The teacher at Level 4 is recognized as a leader in this area and could be called upon to model skills/competencies or assist in the development of this skill with colleagues.

3 –A teacher at Level 3 demonstrates appropriate best practices for an indicator, engages and guides students, differentiates and monitors the results. A teacher at this level is student-centered and focuses on the skills and strategies which result in increased student progress. The Level 3 teacher demonstrates mastery of this indicator.

2 – A teacher at Level 2 demonstrates strategies for an indicator but does not yet monitor its effectiveness on student learning. A teacher at Level 2 is progressing toward applying effective practices toward accomplishment of the indicator, but needs some assistance in mastering the skills necessary to positively affect student progress.

1 – A teacher at Level 1 may demonstrate a strategy for an indicator but it is incorrect or ineffective. A teacher at this level must improve his/her understanding and application of strategies for this indicator to correct or avoid negative effects on student progress.

Rating Scale for Student Progress Data: Indicators 2.5, 5.6 and 5.7

Indicator 2.5 is for Group A teachers only, and is the Classroom Overall Weighted Average (OWA) for the teacher. This is found in the Classroom Gain History Report.

Indicator 5.6 is for all teachers, and is the Academic Growth average reported in the School Summary report. This is already filled in for the ATPES evaluation instrument for each school.

Indicator 5.7 is for all teachers, and is the Other Indicators average reported in the School Summary report. This is already filled in for the ATPES evaluation instrument for each school.

The rating scale range for student progress data is 1 to 4. The actual weighted average over a three-year period for an individual or school will appear as a number such as 2.75, 3.78, etc. **Ratings in the 1-1.99 range will be considered deficient and will require an improvement plan.**

RATING FACTORS

Ratings will be based upon formal and informal observations and results of quantitative student progress assessments. In addition, an evaluator may use data gathered throughout the year which is obtained during any direct observation of the teacher's performance in the classroom or through contacts in the school professional setting.

THIRD PARTY INPUT ON EVALUATIONS

Ratings may also reflect input from responsible third parties or from the personnel file of the teacher. Teachers will be made aware of third-party information relied upon in the determination of evaluation ratings or comments.

Professional Growth Plan

Amphitheater District has many excellent teachers whose performance does not mandate improvement in the sense that there are deficiencies present in that performance. But, even when no domain or indicator is rated "1", a teacher can still benefit from a Professional Growth Plan which encourages the refinement of skills and continuous improvement of practice. When a domain or indicator is rated "2", a Professional Growth Plan addressing that area is strongly encouraged. Professional Growth Plans may be developed at the discretion of the teacher and/or the evaluator. Any teacher may be asked to complete a Professional Growth Plan regardless of performance level.

The teacher and the evaluator will mutually agree on the specifics of a Professional Growth Plan. This plan should indicate the specific goals, activities to be undertaken, and the role the evaluator will assume in providing assistance to the teacher. This plan can be developed at the evaluation conference or at a later date.

Improvement Plan

An Improvement Plan must be developed when any indicator or entire domain is rated a "1", on the ATPES rating form. Improvement Plans may be written for ratings of "2" on any one indicator based on administrative discretion. If more than one Domain is rated "1" priority will determine the specifics of the plan. All deficiencies must be addressed. If an improvement plan is not required, deficiencies will be addressed through recommendations for improvement.

The plan, arrived at through discussion *between* teacher and evaluator, must specify (a) the specific area(s) needing improvement, (b) action(s) and timelines for improvement, (c) expected outcomes, and (d) administrative assistance which will be provided.

Areas identified for improvement will be re-evaluated as outlined in the Improvement Plan.

Lack of Progress on an Improvement Plan

If a teacher fails to overcome deficiencies which were addressed through recommendations for improvement or an improvement plan, the evaluator may notify the Superintendent of the continuing deficiencies and may request that the Superintendent issue a preliminary notice of inadequacy of classroom performance.

APPEAL PROVISION

Teacher evaluations are not subject to appeal; however, if a teacher feels the results of an evaluation are unjustified, or that procedural violations or circumstances beyond the control of the teacher have occurred, a second observation by a different, Board-approved evaluator may be requested.

A request for a second observer must be submitted to the Director of Human Resources or his/her designee within five (5) workdays after completion of the evaluation. At the request of the teacher, the Director of Human Resources will appoint a second observer. Alternatively, the teacher and the evaluator may each appoint second and third observers, respectively.

If appropriate, the second/third observer will view the teacher actively teaching a lesson. If the rating being disputed by the teacher is in an area which cannot be observed in the classroom, the second/third observer will gather and evaluate available data and determine the rating based upon that information.

The opinion of the second/third observer will be included as additional information in the teacher's personnel file. It will not replace or supersede the disputed evaluation.
