To: Alpena County Facility, Capital & Strategic Planning Committee

From: Erik Smith, Sheriff

Ref: Lean-to on Animal Control Shelter

The Friends of the Alpena Animal Control is proposing to fund and construct a lean-to structure on the front of the Animal Control Shelter. The purpose of this would be to prevent water from pooling in front of the building and seeping through the front doors into the building. It would also cover the entrance door, preventing the electronic door lock from freezing, and to prevent slip/fall hazards.

Current building is 38' length & 26' width across the front.

Proposed Lean-to

- 26' across front of building-6' deep
- 8' high attached to the building & 7' high at the front
- Concrete pad underneath
- Please see the attachments

This project would be at no cost to the county and would be constructed under the direction of licensed builder Tom Pelkey. The Friends of the Alpena Animal Control would also be responsible for obtaining all necessary permits.

Respectfully,

Erik Smith, Sheriff
