

Corrina,

As we discussed last month, the District's final manual is attached. It has been uploaded to the [MTSBA website](#) and is available publicly at this link:

https://issuu.com/montanaschoolboardsassociation/docs/browning_public_schools?fr=sZGI5YTU2ODAzOTk

Many districts use this link on the district's website to link directly to the public manual. It offers keyword search and download capability.

The Microsoft word versions of the policies are available at this internal link for you and Carlene to use. MTSBA staff also have access.

When the district has updates to policies, please send them to me and we'll complete the necessary changes in both locations.

We are also in the process of completing a transition to a new policy hosting platform that moves away from the pdf and dropbox process described above. When the conversion of Browning's manual is complete, the district will receive an email notification about the transition to the new platform, a link to the new manual, access to training modules, and a description of the login process. At that point the link on the MTSBA website will also redirect to the new platform.

Please contact me if you have other questions or areas that need attention.
